STVDIOSO LECTORI

ANGELVS MONOSINIVS.

VBI primùm mihi voluntas inceſſit periculum faciendi, quàm proximè accedat Linguæ Græcæ, Romanæque antiquiori Etruſcus ſermo, ſtatim plures difficultates, & eæ non modici ponderis, vt videbantur, mihi ſeſe obiecerunt. Viſum fuit incœptum, quod vix multis poſt annis longâ, diligentíque lectione perfici poſſet; ocij verò primo præſertim tempore parum, aut nihil erat. In mentem venit, ſine magnâ librorum copiâ id nequaquam, aut tenuiter eſſe ſucceſſurum; eóque differendum fore opus, quoad huic quoque parti ſubuentum eſſet. Inſuper conſiderabam, laborem hunc meum, quamquam multis probatus fuiſſet, non multum tamen laudis allaturum; quippe omnis gloria, quæ inde elici poſſet, arctis Linguarum limitibus coangusterur. Hæc, & alia, quæ hoc in loco recenſere nihil oportet, mihi ſæpius obſtiterunt; quibus tamen diuerſis rationibus occurſum fuit. Nam, communicatâ hac meâ voluntate cum amicis, non defuerunt multi, qui vel conſilio, quod in rebus dubijs plurimùm valet, vel operâ ſuâ mihi non ingratam operam nauârunt. Quorum vnum, & alterum ſilentio præterire nefas eſſe cenſerem, Bernardum ſcilicet Dauanzatum Boſtichium, virum in his mitioribus Muſis ſolertiſſimum, ac Petrum Dinium iuuenem nobilitate, doctrináque illuſtriſſimum: quorum erga me beneuolentiæ, ſtudióque erga taleis literas, ne amplius dicam, magna pars huius Operis accepta referenda eſt. Hic enim ſtudiorum cauſsâ Parmæ, Perujij, Bononiæ, alibíque commorans, occaſionem nactus viris doctiſſimis hoc meum conſilium conferendi, ad me plureis tranſmiſit libros; unde non modicam vtilitatem percepiſſe liberè confiteor. Ille verò a principio renitentem, atque interdum in operis proceſſu titubantem, modò inculcans τὸ Virgilij notiſſimum In tenui labor; at tenuis non gloria; & modò Perionium, Budæum, Picardum, Bayſium, & alios præſtanteis viros commemorans, qui pro Linguâ Gallicâ in tali argumento laborârunt, adeò mellitâ ſuâ oratione impulit, ac confirmauit, vt & onus ſuſceperim, & pro viribus promptè ſubſtinuerim. Hoc igitur impulſore, & illo, multíſque

tísque alijs adiutoribus, Candide Lector, congessi in hunc Tractatum voces simpliceis, quæ ἀμίκτως è Græcis Etruscæ effectæ sunt, Phraseis itidem, atque Adagia, prout mihi in mentem venerunt; è Romanis etiam nonnulla, vt in Synopsi post Præfationem planiùs intelliges. Sed, antequam præfari aggrediar, de quibusdam te admonitum uolo, aliquot scrupulos, qui exoriri possent, minuendi, vel penitus tollendi gratiâ.

Titulo generali [Floris Italicæ Linguæ] subdidi [de Congruentiâ Florentini, siue Etrusci sermonis] potius quàm absolutè Etrusci (quæ Dialectus absque controuersiâ in Italiâ principem locum obtinet) tum, quia præcipui, illustriorésque Etrusci Scriptores Florentini fuerunt; tum etiam, quia ad Florentinam Linguam veluti ad exemplar quoddam perfectius communis peritorum sententia cæteras omneis Etruscas referendas existimat.

In principio. Dixi [cum Romano] Isidori sententiam secutus; qui Originum lib. 9. iuxta quorumdam opinionem affirmat, quatuor fuisse Latinas Linguas, Priscam, Latinam, Romanam, Mistam. De Priscâ nihil; de Latinâ, præter aliquot fragmenta legum Duodecim Tabularum, pauca extant. Conatus sum igitur Romanæ Florentinam conferre, & Romanæ præsertim antiquiori, quam Liuius Andronicus, Nævius, Plautus, Ennius, & huiusmodi vetustiores locuti fuerunt; ex Catullo, Terentio, Sallustio, Cicerone, & alijs recentioribus, ne uiderer claritatem soli afferre uelle, non multa, eáque, ut studui, non uulgaria proferens.

Scripsi Latinâ potius, quàm maternâ linguâ, quia non pro Italis susceptus est hic labor, sed pro aduenis, ac præcipuè Transalpinis, qui nulli impensæ, uel incommodo parcentes, adeò hac nostrâ tempestate Etrusco sermone delectantur, ut quàm multos annos eius addiscendi causâ apud nos commorari non pigeat. Speraui enim hac ratione, me ab illis maiorem gratiam esse initurum. Nec animo cadant, uel ab incœpto dimoueantur, si qui nostras has nugas Linguæ Græcæ non admodum periti lectitare non dedignabuntur: nihil enim, quod lectorem posset retardare, Græcè prolatum est, quin deinceps Latinè redditum fuerit.

Quotiescunque simpliciter Academicos, uel Academicos Florentinos appello, non loquor generatim, sed eos intelligo, quorum Collegium LA CRVSCA uernaculâ Linguâ nuncupatur; è quorum numero ego unus sum, quamquam scientiâ, cæterísque omnibus cunctorum minimus. Nuncupatur autem *la Crusca* (ut è re natâ hoc etiam dicam) quoniam, quemadmodum pistores, similésque ministri ex farinâ similam a furfure secernunt, ut efficiant sua opera perfectiora, ita iubent nostra dogmata, nos ex operibus laude digna a reprobandis segregare, ac colligere, eáque reddere, ut dixit Socrates Strepsiadi apud Aristophanem παι πάλιω, nempè ex sententiâ interpretis τὸ λεπτότατον τῦ ἀλεύρυ. i. farinæ florem, omnino scilicet pura, ac perfectissima.

Quòd attinet ad simpliceis dictiones, nulli mirum videri debet, si aliquibus apud nos uariata sit sententia, cum istud Latinis quoque euenisse reperiatur, & quàm plurimæ etiam, quas nostri a Romanis manifestè deduxerunt, proprium significatum amisisse uideantur, ut suo loco clarissimè patebit.

Quòd Etrusca lingua digna sit, quæ Barbara, uel manca, siue cornix

Aeso-

Aesopica appelletur, cum hęc mera uideatur calumnia, & abalijs huiusmodi argumentum tractatum sit, non censui quidpiam respondendum. De ipsius ubertate obiter nonnihil in Præfatione reperies: hoc autem loco, quatenus ad eius proprietatem, ac uerborum copiam pertinet, unicum, & id minimum propono exemplum. Clauus dicitur a Latinis, quod a Græcis ἧλος: utrique uerò pro quouis, breui, longo, subtili, crasso, magno, ac paruo idem nomen usurpant. Cicero, atque Horatius significare uolentes crassiorem, ac longiorem, cuiusmodi trabes configuntur, trabalem clauum dixerunt; hic Ode 35. lib. 1. & ille Actio. 7. in Verrem. Nos autem singula ipsius genera proprio nomine appellantes, dicimus, *Chiauarda*, *Chiodo*, *Agnio*, *Tozzetto*, *Bullettu*, *Bullettina*; ex quibus uocibus singulę distinguntur clauorum species, & absque vllo epitheto optimè a quouis intelliguntur. Quid verò ampliùs efficere debet sermo, quàm, quid fuerit, aut sit res propriè, ac planè breui verborum compendio exprimere? Sic enim definiuit orationem Antiphanes Philosophus, vt inquit Laërtius in principio ipsius Vitæ; λόγος ἐστὶ, ὁ, τὸ τί ἦν, ἢ ἔστι, δηλῶν. i. Sermo est, quod, quę fuerit, aut sit res, clarè exprimit. *Gallisua Præfatione.*

Quatenus pertinet ad citandos auctores, vnde exempla desumpta sunt, fateor in multis me non exactâ vsum esse diligentiâ; vel quia interdum superuacaneum duxi, vt in multis dictionibus, nonnullisque Phrasibus, nempe apud scriptores vulgatissimis; vel quia timui, ne, vel minimorum exempla afferendo, ac locos auctorum examussim demonstrando, uolumen sine vllâ vtilitate, ac necessitate grandius efficeretur. Asseueranter quidem affirmo, me nihil huc transtulisse, quod ex aliquo probato scriptore elicitum non sit. Quos verò auctores tam Græcos, quàm Romanos, aliósque adhibuerim, nequâ ex parte sedulitas tua defraudetur, statim post Præfationes apponere non grauabor.

Inter Phrasis in secundo libro collectas aliquæ erunt, quas a Græcis quidem, sed per Latinos ad nos peruenisse quispiam iudicabit. Quod vtcunque sit, a me nihil contradicetur; id enim a præstituto nostro fine non est alienum: &, siquæ Græcis, ac Romanis communes sunt, inter Græcas potiùs, quàm inter Latinas recensendas esse, nec malè forsitan, existimauimus.

Si interdum (quod rarò tamen fiet) viliora ex vulgi fæce præcipuè uerò Adagia protulero, non censeo mihi culpę tribuendum; nam, licèt proposuerim, me Florem Italicę Linguę collecturum; non tamen profiteor Florem ex Flore seligere, sed afferre quęcunque obscœnitatis, atque impietatis expertia ad Etrusci sermonis copiam, proprietatémque in omni Charactere ostendendam commodè per Græca, vel Latina enodari posse videbuntur.

Vnum hoc insuper vltimo loco postulo; ne mihi uitio uertatur, si, quæ per se plana sunt, quandoque explicare non omitto; ac pluribus etiam uerbis claritatem inquirere uidear. Pro illis enim potissimùm scribens, qui nostrarum rerum penitus ignari sunt, ipsis alterum consilium non omnino ingratum fore censui; & quoad alterum, veritus sum, ne, breuior esse contendens, in obscuritatem paucioribus inciderem. Ea verò mihi visa est huiusmodi rerum natura, ut nostra oratio longa appellari non debeat; nam, ut inquit ille Comicus, *Antiphanes.*

ἔπι ἔστιν ἰδεῖν λεγόμενον μακρῶς, ὅτι
ὁ λέγων ὑποτάττει τοῖς λόγοις τὰ πράγματα. i. Vt sententiã exprimã
Nulla oratio longa videri debet, quando,
Qui dicit uerbis res adequat.

Sed his fortasse, & similibus superfedere poteram, sciens, æquos iudices omnia æqui, bonique facturos; iniquos autem, atque inuidos ad tam humileis gerras fastosum supercilium non esse inclinaturos. Quod etiam ipsis, iuxta dictum illud Euripidis κἰς τὰ πίστιμα δ' ὁ φθόνος πηδᾷ φιλεῖ. i. Solet inuidia ad res illustreis prosilire, memorat hoc nostrum Distichum;

Nil nostris tecum persolis, Inuide, nugis;
Non tricas, apinas, impetit alta Theon.

PRAE-

PRAEFATIO.

apertissimè, ut spero, apparebit in Opere, quod præ manibus habeo; De Festijs Antiquorum, & nostris. De Latinis hoc quoque sensit Eustathius, qui in. A. Homeri Odyss. ita scriptum reliquit; τῆς δεξιᾶς χειρῶν ἡ συμπλοκὴ, ἔοικεν ἐξ Ἑλλήνων ὑπηχθαι τοῖς Λατίνοις μετὰ καὶ ἄλλων μυρίων ἐθῶν. i. Dextrarum manuum comprehensio a Græcis præter alias innumeras consuetudines videtur ad Latinos peruenisse. Accedinde, multis alijs moribus enumeratis, qui illinc ad Italos deducti sunt, ita subdit; οὐ μόνον δὲ ἔθη Ἑλληνικὰ τοῖς ἐκεῖ ἐπετήδευσαν, ἀλλὰ καὶ λέξεις Ἑλληνικαὶ πολλαὶ, καὶ μάλιστα Δώριοι ἐνετίμησαν. i. Non solùm autem Græci mores ad eos peruenerunt, sed & multæ dictiones, præcipuè uerò Doricæ Dialecti inibi constiterunt. Non decrò tamen, quin etiam in hoc Opere de huiusmodi Ritibus aliquot exempla proferam, ut lector, quemadmodum a Græcis dicebatur, καθάπερ ἐκ ὄνυχος λέοντα γινώσκει. i. veluti ex unguibus leonem cognoscat. Illi autem præcipuè afferentur, qui uel omnino uerbis peraguntur, uel sine sermone constare non possunt, uel saltē de quorū appellationibus inter utrosq; cōuenit.

Sed, quamquam nostra Lingua a Romana, ut multi uolunt, originem duxerit, & augmentum, pulcritudinémque ut ipse sentio, a Græca mutuata sit, neutri tamen quidpiam inuidere uidetur. Nam, si considerentur simplices uoces, Græcam ferè numero superat, Latinam certè, equis albis, ut est in prouerbio, antecedit. Diligentissimi harum rerum indagatores asserunt, ex Græcis duodetriginta uocum millia, non amplius repériri; ex Latinis vix viginti Chiliadas extare; Nostrates uerò, nullâ earum ratione habitâ, quas uulgus innumeras usurpat, nisi etiam apud probatos auctores inueniantur, si non transcendunt, ad numerum Græcarum certè perueniunt. Quòd si integra locutio spectetur, præter quæ Græcis, & Latinis uulgò acceptæ referuntur, sunę ipsi non desunt Phrases; quas tantâ effinxit arte, ut nullâ ratione cæteris aut elegantiâ, aut grauitate inferiores dici possint; quemadmodum ex Dictionario nostræ Academiæ, quod iandiu inchoatum, propè confectum est, planissimè censeo constiturum.

Parechesis figura est, quæ à nobis appellatur *Bisticcio*. Græcis, ac Latinis præcipuè Comicis est admodum frequens; non tamen inuenias, eos perpetuum ex eâ conficere ποιημάτιον, ut apud nos faceto stylo nonnulli fecerunt. De hac, & de Aenigmate in Nono libro opportunius exempla afferam; vnde aliquâ ex parte, quod dicimus, explorari, ac dignosci poterit.

Si sermonis lenocinia, ut uocant, uel flosculos, uel lumina requiras, neminem a quo uel Petrarchæ solùm Florentina Poëmata legantur, huius rei, ut opinor, superet dubitatio.

Circunfertur illustre illud Adagiorum uolumen, in quo promiscuè ex auctoribus Græcis, ac Latinis omnis Generis Prouerbia unum, & centumquinquaginta supra quatuor millia collecta sunt. Academici uerò longè maiorem numerum ex Etruscis tantùm in Aduersaria congesserunt quorum maxima pars in Dictionario suis locis insita est, atque explicata. In hoc autem Tractatu quæ per Græca, uel Latina, paucis exceptis, commodè enodare licuit, a me multa explanata sunt; quo uerò ordine, & qua de causâ id fecerim, modò ex totius Operis dispositione planum fiet.

Sed, licèt inuitus id faciã, non possum tamen hoc in loco non monere studiosum Lectorem, ut prorsus caueat a quibusdam nugis, quæ sub nomine

Prouer-

Prouerbiorum, ac Salium Italorum extra Italiam proximis annis euulgatæ fuerunt: auctor enim, quisquis ille fuerit, maiori ex parte meras ineptias congessit; atque Italis non mediocrem iniuriam intulit, ea sub ipsorum nomine publicans, quæ nullus eorum, ne somniauit quidem; quemadmodum quiuis Italicæ linguæ, ac morum minimùm peritus ex vnâ talis libri paginâ optimè perspexerit.

DISPOSITIO, SIVE SYNOPSIS,

QVoniam in omni cuiuslibet facultatis tractatione ordo præceptus quàm maximè prodest, ἀταξία verò multas gignit difficultates; hinc ego rationi consonum me facturum iudicaui, si, quem in hoc Opere seruaui ordinem, quàm paucissimis verbis possim Lectori ob oculos ponam.

Generaliter vsus sum methodo collectiuâ: primo enim protuli Dictiones; deinde per imperfectam Syntaxin ad perfectam deueniens, tribus epistolis integri sermonis exemplar proposui: vltimo loco in vnum colligi omnis generis Prouerbia. Quæ cuncta hoc ordine, ac dispositione tractata sunt.

In primo libro afferuntur exempla aliquot Dictionum, quas tum Simplices, tum Compositas siue examussim, siue per Etymologiam, vel Allusionem quamdam absque ullâ controuersiâ ἀμέτρως Etrusci a Græcis acceperunt. Transtuli verò huc non omneis, sed quasdam tantùm specimenis gratiâ, quæ mediocri adhibitâ diligentiâ succurrerunt: id enim instituti nostri non erat; perficiendúmq; reliquimus Ascanio Persio, viro huiusmodi literarum perituissimo, qui cunctas se collecturum suo opusculo vernaculâ linguâ scripto iandiu pollicitus fuit. Quòd si eas quoq;, quæ per canalcis Latinos sacræ, & profanæ, è Græcis fontibus ad nos peruenerunt, & quas Græci παραγώγας Latini Deriuatiuas dicũt (a quo cęteri nõ cauerunt) hoc in loco coagmentare libuisset, longè maior fuisset Catalogus, sed hic labor nimis fortasse exquisitus, ne dicã penitus superuacuũ, multum tædij, vtilitatis minimum siue dubio attulisset. Inter has autem explicandas, vt simul & molestia uitetur, & obiter a nostræ Linguæ studiosis aliqua, nec ingrata, vt censeo, iniretur gratia, multa exposita sunt Adagia, præsertim ex ijs, quæ nec Græcis, nec Latinis aptè suo loco explanari posse videbantur.

In altero non pauca de Syntaxi generatim, ac speciatim tractauimus; vnde præter cætera non modicam vtilitatem eliciendam censeo, cum illud seruauerim, vt exempla, quæ in medium proferuntur, vt plurimùm aut sint celeberrimæ alicuius scriptoris sententię, aut dicta notabilia. Collectæ deinde sunt, ac per quemdam certum ordinem dispositę plus minus tercentæ Phrases, quæ, nostro sermoni optimè respondentes, pleræque a Latino longissimè absunt. In calce huius libri reperies ternas literulas Græcè scriptas, quæ totidem verbis translatæ, cum Florentinâ linguâ ferè omnino congruunt, vt ex ipsarum inspectione manifestissimè apparet.

Tertius habet omnis generis Adagia, quæ a Græcis ad nos emanârunt vel penitus integra, vel minimâ verborum, aut sententiæ mutatione factâ.

Quartus, iterato ordine, continet cum Dictiones omnis generis, tum

Phraſeis, nec omnino tritas, nec vtique indecoras, quæ Romæ priſcis temporibus maiori ex parte notiſſimę, eædem prorſus Etruſcis communes ſunt. Multa etiam inuenies ibidem prolata, ad Syntaxin præcipuè imperfectam pertinentia.

In Quinto itidem vt in Tertio Prouerbia collecta ſunt, quę a Latinis originem traxerunt, vt de Græcis diximus in argumento Tertij libri, vel, penitus integra, vel ſententiâ, aut verbis in minimo immutatis. Sub huius verò finem Centuria noſtratum Paræmiarum in ſtudioſorum gratiam ferè totidem verbis Latinè reddita eſt. Sed, quoniam nonnulli linguam noſtram omnium inopem dictitant, præſertim verò Prouerbiorum, ac Sententiarum; quæ ſunt præcipua Linguarum, vt inquiunt, lumina, ſeu ornamenta, conatus ſum huic quoque parti ſatisfacere; &, quibuſcunque aut per Græca, aut per Latina lucem aliquam afferre potui, id peragere tentaui, vt ex alijs libris non obſcurè percipiendum exiſtimo:

In Sexto enim, quotquot commodè per Græca Adagia, intelligi poſſe viſa ſunt, omnis generis ſuo ordine comprehendi;

In Septimo verò, quibus Latinorum ope claritas aliqua præberi poſſe videbatur, in plureis faſciculos ſimul copulaui. Et

In Octauo ſpeciminis gratiâ congeſſi multa Prouerbia ex ijs, quibus eſt ἡμιστέλεχον, quod a nobis dicitur *Rima*. Ac deinde nonnulla Phyſiologię, Agricolationis, Medicinę, & quę ad varia anni tempora ſpectant Præcepta, vel Prognoſtica cum ſimilibus coegi, atque ipſorum maiorem partem Latinè adumbrans pro viribus illuſtrare contendi.

In Nono denique non pauca exempli itidem cauſsâ propoſui, quę, ſi non omnino Etruſcorum propria, ſaltem apud ipſos longè frequentiora ſunt, vt αἰνιγματωδῶς, vel per etymologiam, ſiue alicuius verbi alluſionē dicta.

In ſummâ, præter alia, in hoc Tractatu a me ſunt expoſita ferè quatuor Adagiorum millia quantâ maximâ diligentiâ, ac facilitate fieri potuit. Qua in re, ſiquando allucinatus, vel potius cęcutiſſe videbor, memoratum eſſe cupio illud Pindari; ὁ, τι πολὺ, καὶ πολλὰ βέπει, ὀρθᾷ διακρίνειν φρενὶ μὴ παρὰ καιρὸν ἁπαλός. i. quod multùm, & multas in parteis vergit, rectâ diſcernere mente non intempeſtiuè, difficile eſſe. Non ſibi tamen perſuadeat Lector, a me ſuſceptum eſſe onus omnium noſtrorum originis oſtendendę; nihil enim ſum in hac parte immoratus, quippe qui ea ſolùm protuli, quę uel in Etruriâ, & præſertim Florentię cunctorum ſermone trita ſunt, vel apud peritiſſimos noſtrę Linguę auctores inueniuntur.

Line 1 Thy lot or portion of this world: the next
2 Shall be thy grave—but with a name which make
3 Unutterable nothingness sound much.
4 Too proud to live, study to die, Frederick:
5 And fame, and life, and grave shall be thy meed.

Line 6 Thy life is in thine hand, and so is death,
7 And on thy will depends the last of pain,
8 The sharpest of thy few remaining hours:
9 Two years ago, this week, I proffered life
10 And freedom, and a thousand bounteous gifts,
11 Which thou hast spurned. Reject not what I offer
12 Again—I pity thee—who pitied me—
13 I cannot stay thy fate—but mine own act
14 Hath rendered me thy friend—and what is more,
15 Mine enemy's friend—Weigh well my words—they are
16 Few, and perhaps the last which thou shalt hear.

Line 17 Consult thine own heart—Frederick—and recall
18 Our early days—Thou hast been rash and wild,
19 But not unfeeling—Think of Rosenberg—
20 Of Stanhope—Hohenstiel—Bonstetten—Gruyer—
21 Of all the friends who fain would have preserved
22 Thee from the crimes which lead to this catastrophe—
23 Of me, who vainly proffered life and love—
24 Of thine own hopes laid waste—of all which may
25 Still crowd the few left moments of thy life
26 With true remembrances—and spare remorse
27 Its sharpest sting—Farewell—I will not waste
28 Another word, or thought, on those who live
29 Not in my heart—Once more—farewell.

Line 30 Thy foe,
31 Who would have been thy friend.

Line 32 Ulric.

Line 33 Frederick. (Alone.)
34 He's gone—and I am left alone with Death!
35 Methought I could have met him as a friend,
36 Now he is here—but I am not prepared.
37 I am not fit to die—I dare not look
38 Upon the gulf which yawns for me—I dare not
39 Think of the hell which gapes for me—I dare not
40 Look back upon my life—I dare not look
41 Upon my future fate—I dare not look
42 Upon the present—Whither shall I turn
43 My eyes, my soul, my thoughts?—Not upon heaven—
44 Not upon earth—not upon hell—not upon
45 Myself—Where shall I find a refuge from
46 Myself?—Ulric!—Ulric!—Ulric!—he is gone—
47 He will not hear me—he will not return—
48 He will not look upon me—he will not
49 Think of me—he will not pray for me—he will
50 Not curse me—he will not do aught but leave me
51 To my own heart and soul—and worse than both
52 Would be the company of either fiend

Mary. Yes, I am sure of it. I have been thinking about it all the morning.

Mother. Then you must not think about it any more. Remember that you have a lesson to learn, and you must not let your mind wander from it.

Mary. Yes, mother, I will try not to.

Mother. Now, Mary, I am going to tell you a story, and I want you to tell me what it is about.

Mary. Oh, I shall like that very much.

Mother. Once there was a little girl who had a very kind mother. She was very fond of her mother, and always tried to please her. One day her mother gave her a piece of money, and told her to go to the store and buy some sugar. She went to the store, and bought the sugar, and on her way home she met a poor old woman, who asked her for some money. She had a great mind to give her the money, but she thought that her mother would be angry with her if she did not bring home the sugar. So she passed on, and left the poor old woman to beg of somebody else.

Mary. Oh, mother, I know what you are going to say. You are going to tell me that she was very sorry for it afterwards.

Mother. Yes, she was very sorry for it afterwards, and she wished that she had given the money to the poor old woman. Now, Mary, tell me what you think of this little girl.

Mary. I think she was very wicked, mother, and I am sure I should not have done so.

Mother. Then you think you would have given the money to the poor old woman?

Mary. Yes, mother, I am sure I would.

Mother. Then you think you would have disobeyed me?

Mary. Oh, mother, I would not disobey you for anything in the world.

Mother. Then you think you would have disobeyed me for something in the world

(2) Limitations on Remote Access to Electronic Files; Social Security or Immigration Cases. Unless otherwise ordered by the court in the case, documents described in Rule 5.2(a) made electronically available to the public shall be limited to a docket and to those documents the court orders to be made available to the public.

(3) Limitations on Remote Access to Electronic Files; Criminal Cases. Unless otherwise ordered by the court in the case, documents described in Rule 5.2(b) made electronically available to the public shall be limited to a docket and to those documents the court orders to be made available to the public.

(4) Filings Made Under Seal. The court may order that a filing made under seal be made available by electronic means to the public or may order that a filing not made under seal be made available only by means other than electronic means. It may later order that a filing be unsealed and made available by electronic means.

(5) Protective Orders. For good cause, the court may by order in a case:

(A) require redaction of additional information; or

(B) limit or prohibit a nonparty's remote electronic access to a document filed with the court.

(6) Limitations on Use. Unless otherwise ordered by the court, a person's use of information that can be obtained only by accessing a filing remotely and that is available as a result of electronic filing or service authorized under these rules or the court's local rules may be restricted. The court may order that filings containing such information may be accessed only in specified electronic or other forms. The court may prohibit certain uses of information accessed from filings, such as downloading, sale, or bulk distribution.

(7) Copies Provided to the Court. Unless otherwise ordered by the court in the case, documents described in Rule 5.2(a) and (b) that are delivered to the court in electronic form shall be limited to those documents the court orders to be delivered to the court in electronic form.

(8) Waiver of Protection over Public Filing. A person waives the protection of Rule 5.2(a) as to a filing made with the court unless the person makes the filing under seal or the court orders that the filing be sealed. Waiver of protection over public filing also occurs if the person or someone with authority to act on the person's behalf files an unredacted document in the public case file rather than providing it to the court in accordance with local rule, unless the person has requested that the document be sealed and that request is pending.

(9) Filings Made by Self-Represented Individuals. Because self-represented individuals are entitled to receive documents from the court electronically only if ordered by the court, they may continue to file, sign, and receive documents in paper form even if the court requires electronic filing by represented persons. They must comply with Rule 5.2 regardless of the form of their filings.

(10) Clerk's Duties Not Affected. The clerk is not required to review documents filed with the court for compliance with this rule. The responsibility to redact filings rests with the parties and their counsel.

(11) Time to Redact. Any redaction must be made before the filing is made unless the court orders otherwise.

(12) Forfeiture of Redaction Rights. A person who fails to redact a filing within the time required under this rule may move the court after the filing is made for permission to redact it. The motion must identify the location of the unredacted information in the filing. The court may grant the motion only if the movant shows that the person's failure was inadvertent and that the competing interests favor redaction.

(13) Retention Requirement. A person who files an unredacted document under seal must retain it unaltered for the duration of the case, including any appeal.

(14) Motion to Unseal and Redact. A party may move to unseal a document filed under seal and to file a redacted version for the public record.

(15) Redacted Filings Unless Sealing Is Ordered. The court may order that documents filed under seal be redacted instead of sealed.

(16) Exemptions from Redaction Requirements. The redaction requirements do not apply to the following:

(A) a financial-account number or real property address in a transcript of a proceeding before a court, unless the court orders otherwise;

(B) the record of an administrative or agency proceeding;

(C) the official record of a state-court proceeding;

(D) the record of a court or tribunal, if that record was not subject to the redaction requirements when originally filed;

(E) a filing covered by Rule 5.2(c) or (d); and

(F) a pro se filing in an action brought under 28 U.S.C. §§ 2241, 2254, or 2255.

(17) Filings Made Before December 1, 2007. Nothing in this rule requires redaction of documents filed before December 1, 2007.

(18) Option for Additional Unredacted Filing Under Seal. A person making a redacted filing may also file an unredacted copy under seal. The court must retain the unredacted copy as part of the record.

(19) Option for Filing a Reference List. A filing that contains redacted information may be filed together with a reference list that identifies each item of redacted information and specifies an appropriate identifier that uniquely corresponds to each item of redacted information listed. The reference list must be filed under seal and may be amended as of right. Any reference in the case to a listed identifier will be construed to refer to the corresponding item of information.

(20) Waiver of Protection over Public Filing. A person waives the protection of Rule 5.2(a) as to a filing made with the court unless the person makes the filing under seal or the court orders that the filing be sealed. Waiver of protection over public filing also occurs if the person or someone with authority to act on the person's behalf files an unredacted document in the public case file rather than providing it to the court in accordance with local rule, unless the person has requested that the document be sealed and that request is pending.

(21) Filings Made by Self-Represented Individuals. Because self-represented individuals are entitled to receive documents from the court electronically only if ordered by the court, they may continue to file, sign, and receive documents in paper form even if the court requires electronic filing by represented persons. They must comply with Rule 5.2 regardless of the form of their filings.

(22) Clerk's Duties Not Affected. The clerk is not required to review documents filed with the court for compliance with this rule. The responsibility to redact filings rests with the parties and their counsel.

(23) Time to Redact. Any redaction must be made before the filing is made unless the court orders otherwise.

(29) Filings Made Before December 1, 2007. Nothing in this rule requires redaction of documents filed before December 1, 2007.

(30) Option for Additional Unredacted Filing Under Seal. A person making a redacted filing may also file an unredacted copy under seal. The court must retain the unredacted copy as part of the record.

(55) Option for Filing a Reference List. A filing that contains redacted information may be filed together with a reference list that identifies each item of redacted information and specifies an appropriate identifier that uniquely corresponds to each item of redacted information listed. The motion must identify the location of the unredacted information in the filing. The court may grant the motion only if the movant shows that the person's failure was inadvertent and that the competing interests favor redaction.

(61) Retention Requirement. A person who files an unredacted document under seal must retain it unaltered for the duration of the case, including any appeal.

(62) Motion to Unseal and Redact. A party may move to unseal a document filed under seal and to file a redacted version for the public record.

(63) Redacted Filings Unless Sealing Is Ordered. The court may order that documents filed under seal be redacted instead of sealed.

(168) Forfeiture of Redaction Rights. A person who fails to redact a filing within the time required under this rule may move the court after the filing is made for permission to redact it. The motion must identify the location of the unredacted information in the filing. The court may grant the motion only if the movant shows that the person's failure was inadvertent and that the competing interests favor redaction.

(169) Retention Requirement. A person who files an unredacted document under seal must retain it unaltered for the duration of the case, including any appeal.

(170) Motion to Unseal and Redact. A party may move to unseal a document filed under seal and to file a redacted version for the public record.

(171) Redacted Filings Unless Sealing Is Ordered. The court may order that documents filed under seal be redacted instead of sealed.

(172) Exemptions from Redaction Requirements. The redaction requirements do not apply to the following:

(A) a financial-account number or real property address in a transcript of a proceeding before a court, unless the court orders otherwise;

(B) the record of an administrative or agency proceeding;

(C) the official record of a state-court proceeding;

(D) the record of a court or tribunal, if that record was not subject to the redaction requirements when originally filed;

(E) a filing covered by Rule 5.2(c) or (d); and

(F) a pro se filing in an action brought under 28 U.S.C. §§ 2241, 2254, or 2255.

(173) Filings Made Before December 1, 2007. Nothing in this rule requires redaction of documents filed before December 1, 2007.

(174) Option for Additional Unredacted Filing Under Seal. A person making a redacted filing may also file an unredacted copy under seal. The court must retain the unredacted copy as part of the record.

(175) Option for Filing a Reference List. A filing that contains redacted information may be filed together with a reference list that identifies each item of redacted information and specifies an appropriate identifier that uniquely corresponds to each item of redacted information listed. The reference list must be filed under seal and may be amended as of right. Any reference in the case to a listed identifier will be construed to refer to the corresponding item of information.

(176) Waiver of Protection over Public Filing. A person waives the protection of Rule 5.2(a) as to a filing made with the court unless the person makes the filing under seal or the court orders that the filing be sealed. Waiver of protection over public filing also occurs if the person or someone with authority to act on the person's behalf files an unredacted document in the public case file rather than providing it to the court in accordance with local rule, unless the person has requested that the document be sealed and that request is pending.

(177) Filings Made by Self-Represented Individuals. Because self-represented individuals are entitled to receive documents from the court electronically only if ordered by the court, they may continue to file, sign, and receive documents in paper form even if the court requires electronic filing

Ex. xxxiv. 1. And the LORD said unto Moses, Hew thee two tables of stone like unto the first: and I will write upon these tables the words that were in the first tables, which thou brakest.

2 And be ready in the morning, and come up in the morning unto mount Sinai, and present thyself there to me in the top of the mount.

3 And no man shall come up with thee, neither let any man be seen throughout all the mount; neither let the flocks nor herds feed before that mount.

4 And he hewed two tables of stone like unto the first; and Moses rose up early in the morning, and went up unto mount Sinai, as the LORD had commanded him, and took in his hand the two tables of stone.

5 And the LORD descended in the cloud, and stood with him there, and proclaimed the name of the LORD.

6 And the LORD passed by before him, and proclaimed, The LORD, The LORD God, merciful and gracious, longsuffering, and abundant in goodness and truth,

7 Keeping mercy for thousands, forgiving iniquity and transgression and sin, and that will by no means clear the guilty; visiting the iniquity of the fathers upon the children, and upon the children's children, unto the third and to the fourth generation.

8 And Moses made haste, and bowed his head toward the earth, and worshipped.

9 And he said, If now I have found grace in thy sight, O Lord, let my Lord, I pray thee, go among us; for it is a stiff-necked people; and pardon our iniquity and our sin, and take us for thine inheritance.

10 And he said, Behold, I make a covenant: before all thy people I will do marvels, such as have not been done in all the earth, nor in any nation: and all the people among which thou art shall see the work of the LORD: for it is a terrible thing that I will do with thee.

11 Observe thou that which I command thee this day: behold, I drive out before thee the Amorite, and the Canaanite, and the Hittite, and the Perizzite, and the Hivite, and the Jebusite.

12 Take heed to thyself, lest thou make a covenant with the inhabitants of the land whither thou goest, lest it be for a snare in the midst of thee:

13 But ye shall destroy their altars, break their images, and cut down their groves:

14 For thou shalt worship no other god: for the LORD, whose name is Jealous, is a jealous God:

15 Lest thou make a covenant with the inhabitants of the land, and they go a whoring after their gods, and do sacrifice unto their gods, and one call thee, and thou eat of his sacrifice;

16 And thou take of their daughters unto thy sons, and their daughters go a whoring after their gods, and make thy sons go a whoring after their gods.

17 Thou shalt make thee no molten gods.

18 The feast of unleavened bread shalt thou keep. Seven days thou shalt eat unleavened bread, as I commanded thee, in the time of the month Abib: for in the month Abib thou camest out from Egypt.

19 All that openeth the matrix is mine; and every firstling among thy cattle, whether ox or sheep, that is male.

20 But the firstling of an ass thou shalt redeem with a lamb: and if thou redeem him not, then shalt thou break his neck. All the firstborn of thy sons thou shalt redeem. And none shall appear before me empty.

21 Six days thou shalt work, but on the seventh day thou shalt rest: in earing time and in harvest thou shalt rest.

22 And thou shalt observe the feast of weeks, of the firstfruits of wheat harvest, and the feast of ingathering at the year's end.

23 Thrice in the year shall all your menchildren appear before the Lord GOD, the God of Israel.

24 For I will cast out the nations before thee, and enlarge thy borders: neither shall any man desire thy land, when thou shalt go up to appear before the LORD thy God thrice in the year.

25 Thou shalt not offer the blood of my sacrifice with leaven; neither shall the sacrifice of the feast of the passover be left unto the morning.

26 The firstfruits of thy land thou shalt bring unto the house of the LORD thy God. Thou shalt not seethe a kid in his mother's milk.

27 And the LORD said unto Moses, Write thou these words: for after the tenor of these words I have made a covenant with thee and with Israel.

28 And he was there with the LORD forty days and forty nights; he did neither eat bread, nor drink water. And he wrote upon the tables the words of the covenant, the ten commandments.

29 And it came to pass, when Moses came down from mount Sinai with the two tables of testimony in Moses' hand, when he came down from the mount, that Moses wist not that the skin of his face shone while he talked with him.

30 And when Aaron and all the children of Israel saw Moses, behold, the skin of his face shone; and they were afraid to come nigh him.

31 And Moses called unto them; and Aaron and all the rulers of the congregation returned unto him: and Moses talked with them.

32 And afterward all the children of Israel came nigh: and he gave them in commandment all that the LORD had spoken with him in mount Sinai.

33 And till Moses had done speaking with them, he put a vail on his face.

34 But when Moses went in before the LORD to speak with him, he took the vail off, until he came out. And he came out, and spake unto the children of Israel that which he was commanded.

35 And the children of Israel saw the face of Moses, that the skin of Moses' face shone: and Moses put the vail upon his face again, until he went in to speak with him.

De Syntaxi Perfecta.

OMnis ratio ſyntaxeos videtur verſari in perſpicuâ verborum cognitione: quæ cum apud Græcos plura quàm apud nos Tempora, ac Participia, ut dicunt, ſortita ſint; non inutile videtur fore, ſi aliqua hoc in loco non omnino vulgaria attingantur.

Cum omnia, de quibus verba fiunt, referantur ad tempus vel Præſens, vel Præteritum, vel Futurum, & Præſens vnâ tantùm ratione conſiderari poſſit, alia verò non ita; Hinc Græci, Linguæ omnium ditiſſimi, quos poſtea cæteri imitari conati ſunt, plura habebant Tempora, vel Modos, quibus, quicquid in animo erat, modò vellent, propriè poterant explicare. Si agendum fuiſſet de re iam tranſactâ, ſed incertum foret tempus, quàm dudum, aut quàm pridem expedita eſſet, per Aoriſta propriè explicabant. Quòd ſi certũ tẽpus denotare voluiſſent, Præteritum perfectum, quod ipſi παρακείμενον appellant, uſurpâſſent. In quo nos, & Galli utique, atque Hiſpani, vt in multis alijs, Latinos ſuperamus; ipſi enim vnâ, & eâdem voce ad plura ſignificanda utuntur; & nos pluribus, ac longè diuerſis. Exempli gratiâ nos Græcorum παρακείμενον λέλειφα, exprimimus: *Io ho laſciato*. Aoriſta verò ἔλειψα, & ἔλιπον. *Io laſciai*, & *ebbi laſciato*: Quæ omnia a Latinis vnicâ voce, reliqui, comprehenduntur, Quin etiam in hoc Græcos ipſos ſi non vbertate, ſaltem proprietate vincimus: nam, quamquam id propriè efferre potuiſſent, uix tamen, aut rarò eos id obſeruâſſe inuenias: & nobis nullo pacto ſine ſententiæ variatione id efficere liceret. Illud etiam à Græcis mutuati ſumus. s. *Ho laſciato*: ſæpius enim pro λέλειφα, λελειφὼς ἔχω vſitato Pleonaſmo ab ipſis uſurpatum videas. σχᾶγος ἄτροπον ἔχει πεῖσμα. i. ἔστηκε. Sopho. in princ. Aiacis Flagill. Et in Captiuis. εἰ μὴ σὺ τἀφανῆ νικήσας ἔχω. i. ἐνίκησα. Citat Florens Chriſtia. in Gloſſ. Commen. in Ariſtoph.

Sic enim vulgò vertunt.

Sed, cum Verbis multa & a fronte, & à tergo addantur, ego, quæ a Grammaticis percipi possunt, omnino resecatis, pauca hæc animaduertenda propono.

Præter casus, qui a tergo iuxta verborum naturam illis apponuntur, alij quoque non solùm a Græcis, & Latinis, sed etiam a nobis, quando usus venit, adiungi solent. Grammatici Latini præsertim recentiores Casus communeis appellant, & Pretij, Temporis, Instrumenti, vel Causæ nomen indiderunt. Quorum aliqua exempla afferam, cum ex hoc etiam Syntaxi multum lucis afferendum sit.

Petrus Bembus lib. primo, vbi agit de laudibus linguæ Etruscæ. *Laqual cosa ſi porgere ſi può per queſto, che ella, & alle quantunque alte, & graui materie da baſteuolmente voci, che le ſpongono. Di forſe ſette anni.* Antiquus Mythologiſta. Quamuis autem hanc, & alias, rarò vſitatas loquendi formulas, non probauerim frequentiùs adhibitas, non cenſeo tamen, vt Barbaras omninò reſpuendas, ne illud in nos iure optimo ab aliquo vſurpetur;

Quam temerè in voſmet legem ſancitis iniquam?

De DIMINVTIVIS, vt vulgò dicuntur.

QVoad Accidens illud quarumdam dictionum quod pertinet ad minuendum, augendum, improbandúmq; germanum ipſarum ſenſum, liceat præceptionis gratiâ, vel quia res noua eſt, nouta fingere vocabula; quæ tamen ſignata Latinorum notâ pro viribus procudere conabor. Dictio illa, quæ a ſimplici, ſententiam minuendo, deducta fuerit, Diminutiua dicetur; quæ augebit, Augmentatiua; &, quæ vitij quidpiam rei ineſſe ſignificabit, Improbatiua nuncupabitur. Quæ Diminutiuæ dicuntur; vel ſimpliciter ſententiam vocis imminutam eſſe oſtendunt (& hæ Generis nomine appellabuntur) vel blandiendi gratiâ proferuntur (*per vezzo* dicitur a nobis) & hæ Blanditiuæ non indecenter vocati poſſe videntur. Quãdo igitur e.c. propoſitis nominibus, *Domna*, & *Caſa*, eorum ſignificantiam minuere contendimus, dicere ſolemus; *Donnina*, *Donnicina*; *Caſetta*, *Caſina*, vel, *Caſino:* quando augere; *Donnona*, *Donnone*; *Caſona*, *Caſone:* quando improbare, vitium ſcilicet in re oſtendere, dicimus; *Donnuccia*, *Donnaccia*; *Caſaccia*, *Caſuccia*. Diminutio itaque, & augmentum ad quantitatem continuam, vt vocant, referuntur; Improbatio qualitatem reſpicit, quippe voces Improbatiuæ indicent, non rem diminutam, vel auctam, ſed proximo ſuo primitiuo deteriorem effectam. Sunt etiam Augmentatiuę illæ (ſed accipiuntur ſæpius in malam partem) quæ deſinunt in *One*, vt *Ladrone*, *Ribaldone*, *Manigoldone*. Item quæ terminantur in *Otto*, *Otta*, *Occio*, *Occia*. Hæc enim addita nominibus maſculini, ac fœminini generis, augent ſignificatum vſque ad quamdam certam quantitatem, vt, *Caſotto*, *Caſotta*, *Graſſoccio*, *Graſſoccia*.

Vide Ariſt. Rhet. 3 non longè a fi.

Diminutiua, quæ cuiuſdam beneuolentiæ cauſsâ prolata, Blanditiua diximus appellari poſſe, in *Ino*, vel *Ina*, ſæpius finiuntur; & vt plurimùm nominibus puerorum proprijs addi ſolent, vt ſi dicas; *Coſimino*, *Cammillina*, *Tommaſino*, *Pierina*. Adduntur etiam Epithetis, quæ propriè pueris adiunguntur; nec iſta ſolùm, ſed in *Ello*, & *Ella* eandem vim ſæpiſſimè habent, vt *Zoppettino*, *Bruttina*; *Triſterello*, *Ghiotterella*; & ſi iterum diminuãtur dicendo, *Triſterellino*, *Ghiotterellina*, maiorem beneuolentiam, blandimentúmque ſignificabunt. Et de his hactenus: noſtri enim inſtituti non eſt, vt alibi non ſemel diximus, omnia minutatim percurrere, & præcipuè huiuſmodi, quæ Grammaticorum propria ſunt. Qui igirur de his plura deſiderat, ipſorum dogmata conſulat.

Sunt etiam Græcis, & Latinis aliqua Diminutiua, vt Latinis, tenellus, tenellulus, puella, puellula, bellus, bellulus, ocellus, & ſimilia; Græcis ve-

ces Iouis filiæ claudæ descriptæ sunt, vel, vt ostenderet, nihil officere Vulcano ad tam admirabile opus, quòd fuerit claudus. Muretus quoq; Victorij sententiam afferens lib. 11. cap. 10. Varia. lect. nec approbans, nec reprobans, ex Plutarcho inquit, voluisse summum, ac sapientissimum poëtam ostendere, neque bona, neque mala corporis talia esse, vt aut ad laudem, aut ad uituperationem cuiusquam ualdè pertineant. Ego in re tam dubiâ, controuersáque nihil proferre audeo. Doctiores iudicare poterunt.

DE SVPINIS.

CVm utrique Supinis, ac Gerundijs careamus, pro ipsis easdem loquendi formulas vtrique adhibemus. Quod enim Latini efferunt per prius Supinum, Vado quæsitum; Græci, ἔρχομαι ζητῆν. Nos, *Io vo a cercare*. In altera etiam loquendi formulâ, qua idem exprimitur, conuenit inter nos. ὄρνεις φέρων ἐλήλυθα. *Io son venuto, portando uccelli.* i. Aues portatum ueni. In Menan. Frag. οὐ βολβοῖς ἐμαυτὸν χορτάσων ἐλήλυθα. *Io non son venuto contentãdomi di cipolle.* i. Non veni, ut bulbis satur forem Alexis. Bocc. Fabu. 34. *Venendo il tempo, che mandar ne la douea, al Re Guglielmo mandò significando ciò, che fare intendeua.* Et Dauanzatus in Schismate. *Morto Cromuelo, il Re mandò dicendo alla sua moglie Anna, &c. Fatturo*, etiam, *Passuro*, & *Succeduuro* cum similibus quandoque usurpantur a nostris, quæ optimè suo loco exprimerent χορτάσων Græcorum; Dant. Parad. Cant. 6.

Fatto auea prima, e poi era fatturo. Atque ibid. Cant. 20.
Quel de' passuri, e quel de' passi piedi.

Et Dauanz. in Opusculo proximè citato dixit, *Dichiarolla* [*Arrigo Maria*] *Principessa de' Brettoni Vualli, grado proprio del Re succeduuro; e mandolla a quel gouerno.*

Item, quod Romani per posterius Supinum vulgò enunciant, e. g. turpe dictu; Hi, αἰσχρὸν λέγειν. Et nos, *Sconueneuole a dire*, aut, *Sconueneuole a dirsi.* Quod etiam a Græcis factitatum inuenio, ut scilicet hoc infinito modò Actiuè, & modò Passiuè utantur.

ῥᾴδια πάντα θεῷ τελέσαι, καὶ ἀμήχανον οὐδέν. *A Dio son facili a fare tutte le cose, e niente è impossibile.* i. Omnia Deo facta facilia, & nihil eius potentiam superat. Linus apud Stobæum. *Dio può fare ogni cosa.*

τὸ φῶς τόδ' ἀνθρώποισιν ἥδιστον βλέπειν. *Questa luce è a gli huomini giocondissima a vedere.* i. Hæc lux mortalibus aspectu iucundissima est. Eurip. in Iphige. in Auli.

πρᾶός ἐσ' εἰσιδέειν, καὶ μείλιχος. *Questo è mansueto, e piacenole a vedere.* i. Hic mansuetus est, & blandus aspectu. Mosch. Edyll. 2.

τοῦτο γὰρ αὐτέθεν μικρῷ ἀκουδῆναι ὄντι, ἐπιμεγαθύνομεν. *Essendo questo per sua natura grello a vdirsi, noi l'aggrandiamo.* i. Huic enim suâ in paruo auditu existenti, granditatem acquirimus. Vt vertit Victo. Est locus Demetrij.

μάλα δ' ἐστὶν ἑτοίμη ἁρπάξ. *E molto agenole a trouarsi.* i. Admodum facilis est inuentu. Aratus.

FLORIS ITALICAE LINGVAE

LIBER TERTIVS.

ALATVRVS in hunc librũ Adagia, quæ Græci παροιμίας appellant, & multa alia dicta, quæ tam apud nos, quàm apud Græcos nomine Adagiorum circumferuntur, non ſuperuacaneũ me facturum exiſtimaui, ſi, quàm optimam cenſeo Prouerbij definitionem, ac diuiſionem in medium proferam. Sed antequam, quid ſit Paræmia, definiatur, admonitum Lectorem volo, me hoc in loco coactum eſſe aliquâ ex parte recedere ab aliorum opinione, & præcipuè Paræmiographi (nomen enim viri illius, doctiſſimi quidem, ſed Religioni noſtræ parùm addicti, qui Adagiorum Chiliadas collegit cum ſimilibus, qui in hoc genere laborãrunt, ita paſſim denoto) quia diuerſæ, quas affert antiquorum vtriuſque linguæ ſcriptorum de Adagio definitiones, & aliæ, quæ apud Ariſtotelem, Ammonium, Suidam, & huiuſmodi extant auctores, me in diuerſam ſententiam traxerũt. Dico igitur, uarias iſtorum definitiones, de Paræmiâ traditas, ad Paræmiam pertinere, modò propriè, & modò καταχρηστικῶς acceptam; quamquam non omneis omnibus ſuis partibus conſtare, ipſe quoque perſpiciam, liberéque confitear. Et ne multis morer, ut, quoad fieri poteſt, rectum teneam iter, ad Dialectorum præcepta confugiens, hanc Methodi uiam ingredior.

Omnia Oraculorum, uel Sapientium, populorúmque Dicta, uel Sententias ad humanam uitam quoquo modo utileis, quæ communi alicuius totius nationis conſenſu uulgò omnibus in ore eſſent, Græci Παροιμίας, & Latini Adagia nuncupabant. De Latinis nulla oriri poteſt dubitatio, cũ Varronis teſtimonio pateat, dictum eſſe Adagium quaſi circumagium, eoquòd paſſim per hominum ora obambulet. Græci etiam nominis Etymon idem uidetur ſuadere; παροιμία enim, ut arbitror, a παρὰ, & οἶμον dicitur, quæ dictiones iuxta uiam ſignificant. i. tritum, ac diuulgatum, ut ea, quæ iuxta uiam ſunt. Donatus itaque, a quo talis tradita fuit definitio; Paræmia eſt accommodatum rebus, temporibuſq; prouerbium; Paræmiam in ſummo genere accepit, ut, qui ex Græcis dixerunt; παροιμία ἐστὶ λόγος ὠφέλιμος εἰς τὸν βίον. i. Prouerbium eſt oratio, quæ multùm confert ad uitæ rationem; uel παροιμία ἐστὶ πᾶν παραδοτὸν διήγημα. i. Adagium eſt omni & uulgata narratio. Diomedis uerò Grammatici definitio, nempe; Paræmia

ſœmia eſt Prouerbij uulgaris vſurpatio,rebus,temporibusque accommodata,cum aliud ſignificatur, quàm dicitur; atque item hæc Græcorum; παροιμία ἐστὶ λόγος ἀτόκρυφος δι' ἑτέρου πρόδηλα σημαίνομενος. i. Paroemia eſt oratio obſcura,per aliud apertum ſignificata;pertinet ad ſpeciale prouerbium, quod ſub genere illo ſummo continetur. Nec eſt abſurdum, aut omnino nouum,ut uno,& eodem nomine Genus,& Generis illius Speciei quædam ſignificetur. Ariſtoteles enim in quinto Moralium Nicomache. Iuſtitiam,& Iniuſtitiam modò generaliter pro tota uirtute, ac uitio,& modò peculiariter pro ipſius uirtutis ſpecie quadam accipit,ut percipitur ex illis uerbis, in quibus de earum alterâ loquens, ita concludit; ὥστε φανερὸν, ὅτι ἔστί τις ἰδία παρὰ τὴν ὅλην ἄλλη ἐν μέρει συνώνυμος. i. Quare perſpicuum eſt,extare aliam quamdam Iniuſtitiam particularem,præter illam totam,quæ uno,& eodem nomine appellatur. Atque idem de Prudentiâ ex eodem auctore dicere poſſemus. Quin etiam,interdum ita fieri neceſſarium eſſe,oſtendit in primo Meteorologicorum,ubi agit de ortu, ui, & aſcenſu duplicis halitus. Eius uerba ſunt hæc; πρῶτον μὲν γὰρ ὑπὸ τὴν ἐγκύκλιον φορὰν ὅτι τὸ θερμὸν, καὶ ξηρὸν, ὃ λέγομεν πῦρ. ἀνώνυμον γὰρ τὸ κοινὸν ἐπὶ πάσης τῆς καπνώδους διακρίσεως. i. Primùm quidem ſub conuerſione caldum illud,ac ſiccum eſt,quod ignem nominamus. Nam,quod fumidæ omni ſecretioni commune eſt, nomine uacat. Ad quæ Franciſcus Vicomercatus; Illud autem calidum, ſiccumq; corpus,orbi Lunæ ſubiectũ, πῦρ. i-ignem,ait,nominari; quoniam fumidæ aſpirationi, quale illud eſt, nomen commune poſitum non ſit,naturámq; illa obtineat, quæ ſuccendi,& in ignem mutari ſuâ ui poteſt; ut ex affinitate, quam cum igne habet,eius nomen meritò acceperit. Hoc uerò ſæpe facimus, cum uocabulis deſtituimur; ſæpe autem deſtituimur; quandoquidem nomina rebus (ut in quarto huius operis dicitur) paria non ſunt. Ac ſpeciem generis uocabulo interdum nominamus,ut halitum, qui calidus,& ſiccus eſt, halitum:interdum genus,eius, quod eſt ueluti ſpecies,nomine,ut hac in re: ſiquidem ignis ſecretionis fumidę ueluti ſpecies eſt quędam. Hactenus Vicom.qui quarto etiam lib. multa in hoc propoſito affert, ubi agitur de actionibus,quę a calore,& frigore proficiſcuntur. Apud Latinos quoque huius rei extant exempla, ut apud Iuriſconſs. qui e.g. Adoptionis nomen nunc ad ipſum Genus,& nunc ad alteram ipſius Generis Speciem ſignificandam uſurpant.

Conſtituo igitur, eſſe ſummum Genus Adagiorum, ſub quo reperiatur Adagium in Specie cum alijs eiuſdem Speciebus,quæ ſunt Sententiæ, uirtutum,uel artium Præcepta, ac denique ſimplicia Dicta,uel Phraſes. De quibus omnibus, ne idem ſæpius ſit repetendum, paucis mox tradenda, ac dilucidanda eſt Definitio. Sed facilitatis gratiâ unum hoc mihi concedi uelim,ut dictione Prouerbij, uel Adagij uti liceat ad ſignificandum quoduis Adagium in genere; ſub uoce uerò Paroemię hoc in loco Prouerbium in ſpecie denotetur. Quo ſic ſtatuto, Prouerbium in Genere tali pacto definio.

Prouerbium eſt dictum alicuius totius nationis conſenſu celebre non uulgari quadam uenuſtate inſigne. Vbi [Dictum] Generis [alicuius totius nationis conſenſu celebre &c.] Differentiarum locum obtinent. Quod Prouerbio conueniant uerba illa [alic. tot. nat. conſ. cel.] uidetur confir-

mari

mari ex illo Phalerei loco: δημοτικὸν τί ὅστιν ἡ παροιμία, καὶ κοινόν. i. Populare quiddã eſt prouerbium, & commune. Item quòd altera hæc [nõ vulg. quad. venus. inſig.] eumdem auctorem habeo: inquit enim; φύσει χαρίεν πρᾶγμά ἐστιν ἡ παροιμία. nempe. Naturâ venuſta res eſt Prouerbium.

Quatenus attinet ad definitionem Adagij in Specie, quod amodò, vbi videbitur eſſe ambiguitas, Parœmiam ſemper appellabo, omiſſo, quod ſupra de eo dictum eſt, quódque Ariſtoteles in tertio Rhetoricorum innuit, ſic meâ quidem ſententiâ non incommodè definiri poſſe arbitror.

Parœmia eſt Prouerbium, quodam figuræ inuolucro aliud ſignificans, atq; ipſa verba ſonent. Per quam definitionem hoc nimirùm expreſſum cupimus; ea tantùm Prouerbia Parœmiæ nomine eſſe appellanda, quæ vel Allegoriâ, uel Metaphorâ, uel Hyperbole; & huiuſmodi Tropis inſignita ſint. Nam quoad Locutionis figuras; multæ ſunt, quas in Parœmijs præcipuè Italicis reperias, vt diuerſi generis ὁμοιοτέλευτα (Homoteleuta appellat Iſidorus Orig. li. 1. cap. 25.) Iſocola, Antitheta, & ſimileis: ſed, cum iſtæ tantummodò ad uerborum diſpoſitionem, locutionémque illuſtrandam pertineant, non eas iudico neceſſarias ad conſtituendam Parœmiã, quemadmodum etiam neque Verſus: affirmo quidem, ſi quo in Prouerbio reperiantur, eas non medicam afferre venuſtatem, atque interdum grauitatem; quemadmodum ueſtes auro intertextæ, vel acupictæ uirginem formâ non inuenuſtam uenuſtiorem, ac pulcriorem reddunt. Quę igitur ad uerborum collocationem pertinent figuræ, ut adeò ſententiæ ſunt veſtimentum, ita, niſi fallor, haberi, & id ſolùm efficere debent.

Sententia prouerbialis eſt Adagium, quo, quid ſit, aut quid eſſe oporteat in uitâ, breuiter oſtenditur. Hæc orationis forma Xenophontica appellari poteſt: ea enim, quæ per Enunciationem, ac Prædicationem ſimplici modo effertur, Ariſtippea dicitur; & Socratica, quæ cum interrogatione pronunciatur, ut a magiſtris dicendi, ſcribendíque percipitur.

Præceptum prouerbiale eſt Adagium, quo aliquid præcipitur, vel inhibetur, humanæ uitæ conducibile.

Dictum, vel Phraſis prouerbialis eſt Adagium, quod imperfectam, vel non modis omnibus perfectam continet ſententiam.

Sicui verò probatu duriuſculum uideatur, Adagiorum Specificas, ut vocant, Differentias eſſe illas, quæ a nobis prolatæ ſunt, hunc obſecro, conſulat in ſimili argumento, præter alios, Demetrium, & Ariſtotelem. Nam Demetrius Epiphonema a Sententiâ, & Periodum ab Enthymemate diſtinguit ſolo uerborum ſitu: quæ tamen ita diſtincta non ſolùm Specie, ſed Genere quodammodo diuerſa eſſe uidentur. Et Ariſtoteles in primo Ethico. Nicomacheorum non longè a principio inquit. λέγοντα δ' ἀν ἱκανῶς εἰ κατὰ τὴν ὑποκειμένην ὕλην διασαφηθείη. τὸ γὰρ ἀκριβὲς ἐν ἑκάστοις οὐχ ὁμοίως ἐν ἅπασι τοῖς λόγοις ἐπιζητητέον, ὥσπερ οὐδὲ ἐν τοῖς δημιουργουμένοις. i. Officio autem ſuo quis ſatisfecerit, ſi unumquodque iuxta ſubiectam materiam explicauerit. Exquiſitum enim non æquè in omni tractatione requirendum eſt, quemadmodum nec in operibus mechanicis. Et paulo poſt; τὸν παιδευόμενον γάρ ἐστιν εἰδέναι τοσοῦτον τ' ἀκριβὲς ἐπιζητεῖν καθ' ἕκαστον γένος, ἐφ' ὅσον ἡ τοῦ πράγματος φύσις ἐπιδέχεται. παραπλήσιον γὰρ φαίνεται, μαθηματικοῦ τε πιθανολογοῦντος ἀποδέχεσθαι, καὶ ῥητορικὸν ἀποδείξεις ἀπαιτεῖν. i. Nanique eruditi hominis eſt, in unoquoque genere eatenus Exquiſitum deſiderare, quatenus

quatenus fert ipsius rei natura. Æquè enim ridiculum uidetur, approbare Mathematicum probabilibus utentem rationibus, & ab Oratore postulare demonstrationes.

His igitur ita constitutis, apparet, ad constituendum Adagium non requiri e necessitate uerborum inuolucrum sub aliquo Tropo; unde, quod ex ipsis infertur ἀλληγορικῶς intelligendum sit. Apparet etiam, Prouerbium non semper ostendere, quid in uitâ sit, aut esse oporteat; nec Adagio quidpiam necessariò præcipi, aut inhiberi; sed ad ipsum conformandum sufficere, esse dictum communi alicuius totius nationis consensu celebre, ut in eius definitione supra firmauimus. Si enim ex necessitate requireretur uerborum inuolucrum, admodum pauca hoc nomine dignanda essent; & quàm plurima ex horum numero forent ableganda. Quid enim obscuri præfert illud nostri Lyrici; *Ama, chi t'ama*? & tamen nullus est, quin ipsum inter Adagia adnumeret: Quòd poëta quoq; innuit:

Prouerbio, Ama, chi t'ama, è fatto antico; Est.n. Hesiodi τὸν φιλέοντα φιλεῖν. i. Amantem ama; Extat etiam in Menand. Frag. Titu. τὸν φιλέας. φίλει δ' ὑπερφίλει. Illud itidem ex hoc albo delendum esset, quod inquit Socrates apud Platonem in Theaeteto; εἰ ἔτυχες σοὶ φίλον, ἐμοὶ ἐχθρὸν, φασὶν οἱ παροιμιαζόμενοι. quod nos; *Se tu l'hai caro, ed io non lo discaro*. i. Si tibi sic gratum, nec mihi est ingratum: & tamen dubitari non potest, quin ad hunc gregem pertineat, cum adiecta sint illa; φασὶν οἱ παροιμιαζόμενοι. i. Prouerbialiter inquiunt. Quòd si per Adagium semper ostendendum esset, quid sit in uitâ, aut esse oporteat, uel præcipiendum aliquid, aut inhibendum, hæc, & alia quàm plurima ex his fastis euelli deberent, quæ optimi scriptores prouerbia esse apertissimè comprobant, ut; *Alle Calende Greche*. i. Ad Græcas Kalendas; apud Suetonium in Octauio cap. 87. Quod usurpauit facetissimus Bernius;

A riuederci alle Calende Greche. γέλῳ θνήσκειν. *Morir delle risa*. i. Risu emori. Vtitur Ho. Odyss. li. 6. ubi Eustat. innuit, παροιμιακῶς dictum esse. σοὶ μὲν ταῦτα δοκεῖ τ' εἶναι, ἐμοὶ δὲ τάδε. i. Tibi quidē hæc uidentur, mihi uerò ista. Euenus Parius in Elegiâ: & effertur prouerbialiter. Nos uertemus. *A te pare una cosa, e a me ne pare altra*. Concludamus ergo, Adagium tale esse, quale supra definitum est, totq; ipsius esse Species; ad quas Oracula, Apophthegmata, Symbola, Scommata, Dicteria, & alia huiusmodi non difficulter redigi possunt. Ordo autem huius libri, & cæterorum ex prędictis constituetur, ut scilicet Primo loco ponantur Paroemiæ; Altero Sententiæ; Tertio simplicia Dicta, seu Phrases in unum quasi fascem congerantur. Præcepta enim, quamquam tertiò loco recensenda forent, quia sępius Aristippicè, vel Xenophonticè enunciantur, & quandoque sub figuræ inuolucro, ut Paroemiæ, ideo vel inter Paroemias, vel inter simplicia Dicta inferentur. Præterquam quòd, ut ingenuè fatear, non adeò multa collegi, ut ex illis Centuriæ confici possent. Tu, lector, omnia æqui, bonique facias.

L'huomo è fuoco, la donna è stoppa;
Vien poi'l Diauolo, e gli accocca.

4 Siquando videmus, aliquem conuitia ingerere, vel malum interminari illi, qui alterius nomine nuncium attulit, tali ratione os ei occludere conamur;

namur; *L'Ambaſciador non porta pena*; πρέσβυς ὐ τύπτεται, οὐδ' ὑβρίζεται. i. Legatus non cæditur, neque violatur. Scholiaſtes in Quar. Iliad. Idem valet; Nuntio nihil imputandum. Paræmiogra. Hoc etiam moribus videtur apud Romanos, Græcósque fuiſſe cautum. Extat in l. 8. π. De Rerum Diuiſione, & Quali. Segmina ſunt quædam herbæ, quas Legati populi Romani ferre ſolebant, nequis eos violaret; ſicut Legati Græcorum ferunt ea, quæ vocantur κηρυκεῖα. i. caducea. Meminit quoque Heliodorus in Aethiopicis; κηρύκειόν τε εἰς εἰρωνικῶν διαλύσεων σύμβολον ἀναδείξασα. &c. i. Prolatóque caduceo, tanquam colloquij pacificatorij Symbolo. In Septi. *Ambaſciador non porta pena.*

5 Quemadmodum, quando aliquis fœliciter res ſuas gerit, multi amplectuntur, atque ancillantur; ita è contrario, ſiquis aduersâ prematur fortunâ, multi eum perſequi, ac certatim vndequaque in ipſum incurrere videntur. Hoc poſterius a nobis ita efferri ſolet; *Caduto l'albero, ognun corre a far legne*; Δρυὸς πεσούσης, πᾶς ἀνὴρ ξυλλέγεται. i. Arbore deiectâ, quiuis ligna colligit. In Menandri Fragmentis. Quod apertiùs quoque dicitur; *Quand'vn'è per terra, ognun grida, dagli, dagli*. *Caduto l'albero ognun corre, &c.*

6 Antequam quis negocium aliquod aggrediatur, omnia diligentiſſimè eſſe perpendenda, docet nos illud Apophthegma; σπεῦδε βραδέως. i. Feſtina lentè. Quando igitur aliquem de hoc admonere volumus, vel, alterum non rectè vſum eſſe hoc præcepto, ſtudemus demonſtrare, dicimus; *La cagna frettoloſa fa i catellin ciechi*; ἡ κύων σπεύδουσα, τυφλὰ τίκτει. i. Canis feſtinans, cæcos parit catulos. Meminit Euſtathius in Ilia. π. *Cagna frettoloſa fa i catellin ciechi.*

7 Cum perſæpe malum aliquod ab altero ſuperueniente propellatur, vt euênit illi, qui quotidianâ febre diu laborauerat; fulminis enim ictu perterrefacta, illico diſceſſit: in hoc propoſito dici ſolet; *L'vn Diauol caccia l'altro*; Quod a Græcis originem traxiſſe, me monet Euſebius, in Hieroclem ſcribens; Δαίμονας ἀπελαύνει ἄλλον ἄλλῳ, ἢ φασὶ, δαίμονι. i. Expellit Dæmonas, vt eſt in prouerbio, alium alio Dæmone. In ſententiâ non admodum diſſimili videtur ceciniſſe Petrarcha cap. 3. Triumphi Amo. *L'vn Diauol caccia l'altro.*

Come d'aſſe ſi trae chiodo con chiodo;

Ex Adagio Græcorum, ἥλῳ τὸν ἦλον ἐκκρούειν. i. Clauum clauo pellere. Vtitur Lucianus non ſemel, & Ariſtoteles Politic. 5. non longè a fine. Sed hic è re natâ lectorem admonitum volo, a noſtris multa prouerbia pleniori ſententiâ interdum proferri ſolere vel ornatus, vel εὐφωνίας gratiâ. Exemplo ſit prædictum: quandoque enim ita pleniùs pronunciatur; *L'vn Diauol caccia l'altro, e Satanaſſo tutti.* Quod etiam in alijs fit, ut. e.c.

Chi fa, falla, cui additur;
E chi non fa, è vna farfalla. Item;
Chi non ſi miſura, è miſurato; & vulgus addit;
Se non quì, in vn'altro lato.

Prętereà; *Vna mano lauà l'altra*, hactenus ex Græcis, vt mox dicemus; cui addi ſolet; *e le due lauano il viſo*. In quo non cenſeo, talem diligentiam, atque ornatum, nec reprobandum, nec explodendum. Sed de his, & ſimilibus libro Nono opportuniùs.

8 Quod γνωμικῶς dixit Horatius in Satyris,

Est modus in rebus, sunt certi denique fines,
Quos vltra, citráque nequit consistere rectum; ita ostendens, virtutem in mediocritate consistere, præcipitur a nobis παροιμιῶδες. *Tien la strada di mezzo.* μέσην ἔρχε τρίβον. i. Mediâ perge viâ. Theognis.

Tiè la strada di mezzo.

9 Notantes alicuius in rebus agendis impotentiam, dicimus; *E' vorrebbe detto, e fatto*; ἅμ' ἔπος, ἅμ' ἔργον. Phauorinus; vel vt Aristænetus, lib. 2. Epistol. 7. ἅμα ἔπος, ἅμα ἔργον. i. Simul dictum, simul factum. Huc respexit Dauus Terentianus in Andriâ, Dictum, ac factum inuenerit aliquam caussam, &c.

Detto, e fatto.

10 De illis, qui ingentibus hinc, atque illinc premuntur malis, inter cęteras extat hęc parœmia; *E gli è tra l'incudine, e'l martello*; μεταξὺ τῆς ἄκμονος, καὶ σφύρας. i. Inter incudem, & malleum. Parœmiographus ex Origene. Pro hac Latini, vt ex Apulei Asino lib. 11. Inter sactum, & saxum. Nos insuper; *Trale forche, e Santa Canida.* Eodem pertinet illud Smyrnæi Prætermiss. lib. 12. βιοτῆς μεσοκυὲς ὄμας, καὶ ὀλέθρε. i. Inter vitam, & necẽ.

Tral'incudine, e'l martello.

11 Si per Religionem mihi liceret, argumentis, vt censeo, non infirmis ostendere possem, è Græciâ multas etiam superstitiones, aliásque nugas ad nos dimanâsse. Quoniam uerò ista ut uana, è Christianorum mentibus sunt penitus extirpanda, ideo a me ne unum quidem uerbum. Illud non dignum, quod silentio inuoluatur, pupis omnibus, & mulierculis tritissimum; *Il fumo và al più bello*; τὸν καπνὸν πρὸς κάλλιον. i. Fumus pulcriorem persequitur. Notauit. P. Victo. Varia. lecti. lib. 3. cap. 21.

Il fumo và al più bello.

12 Quando uidemus, senem, qui in iuuenili ętate non admodum probatis fuerit moribus, eadem in ipso quoque senio exercere, in eum iactare solemus; *Il lupo muta il pelo, ma non il vezzo*; ὁ λύκος τὴν τρίχα, ὁ τὸν γνάμψιν ἀλλάττει. i. Lupus pilum mutat, non mentem. Parœmiogr. Inter Vespasiani Patris Apophthegmata extat proximum. Rusticus quidam, quoniã gratuitam libertatem suppliciter petens a Cęsare, repulsus fuit, non veritus est clarè dicere; Vulpes pilos mutat, non mores, exprobrans illi naturę rapacitatem, quasi, mercede datâ, concessurus fuisset, quod gratuitò negabat. De Nostro meminit Petrarcha;

Il lupo muta il pelo, ma non il vezzo.

Apophthegma.

Vero è'l prouerbio; Ch'altri cangia il pelo
Anzi, che l vezzo. In Tetradecasti. *Diciasett'anni.*

13 In quam sententiam usurpabant Græci; ὀρνίθων γάλα. i. Lac gallinaceũ; In eamdem nos; *Latte di gallina*; nempe affatim omnia superesse significantes: Parœmiogra. Extat etiam in Synesij Episto. 4.

Latte di gallina.

14 Si quem notare uolumus omnis sapientię, ac leporum esse expertem, principem verò locum inter stupidos, bardósque obtinere, dicere solemus; *Non ha punto di sale in zucca*; ἄλμη οὐκ ἔνεστιν αὐτῷ. i. Salsitudo non inest illi. Eustath. in Odyss. lib. 4. Huc pertinet Catullianũ in Quintiã.

Nulla in tam magno est corpore mica salis.

Non ha punto di sale.

Græci

15 Græci aliquem admonentes, ut, si beneficia ab alijs accipere uellet, ipsum quoque conferre non pigeret, hoc adagium usurpabant; χεὶρ χεῖρα νίπτει. i. Manus manum lauat: Vnde nos; *Vna mano laua l'altra*; Atque interdum addebant; δάκτυλος καὶ δάκτυλον. i. Et digitus digitum; Nos etiam quandoque *E le due lauano il viso*. In Menandri Fragm. Idem quoq; dicimus absque metaphorâ; *Chi vuol de' seruigi bisogna farne*, quam sententiam habet illud Sophoclis in Oedipo Colon. χάρις χάριν φέρει. i. Gratia gratiam parit. Priori germanum. *Vn piede aiuta l'altro*. — *Vna mano laua l'altra.*

16 Quando aliquis inferior sibi uidetur a superiore lædi, ei uolens innuere, se, quamuis illi sit inæqualis, non carere uiribus, nec armis ad retalliandũ, ut Agellij uerbo utar, sic inquit; *Anche la mia spada fora*; καὶ ἐμὸν βέλος ὀξύ κάρτα. i. Et meum telum cuspidem habet acuminatam. Home. in Ilia. x. Huc etiam pertinet Pentameter ille;

Et mihi sunt uires, & mea tela nocent. Recenset Colùandrus. — *Anche la mia spada fora.*

17 Solent aliqui etiam in tutissimis rebus ridiculè timere, & innumeras hinc, atque illinc afferre dubitationes; quos hoc adagio redarguere consueuimus; *O, se'l ciel rouinasse*; τὶ εἰ οὐρανὸς ἐμπέσοι. i. Quid si cœlum ruat? Vnde ortum sit, indicat Aristoteles Metaphys. 5. Vide Paræmiograph. Hoc quoque est ex eorũ genere, quibus nostrum uulgus quandoq; κῶλον addit. Sic. n. talibus illudit; *Se'l ciel rouinasse, ſi piglierebbon tanti uccelli*, q.d, Si ruerit cœlum, quot capiantur aues? — *Se'l ciel rouinasse?*

18 Illi, quem inaniter laborare arbitramur, dicimus; *Tu dibatti l'acqua nel mortaio*, ὕδωρ ὑπέρω πλήσσεις. i. Aquam pistillo tundis. Aquam in mortario tũdis. Lucia. in Sectis. Eandem sententiam habent illa ex Epist. 20. lib. 2. Aristæneti. ἐμοὶ προσλαλῶν, εἰς πῦρ ξαίνεις, γύργαθον φυσᾷς, σφόγγῳ πάτταλον κρούεις. καὶ τὰ λοιπὰ ἀμηχάνων ποιεῖς. i. Cum me affaris, Ignem cædis; Rete inflas; Spongiâ clauum trudis; Aliáque irritorum, ac furiosorum hominum facis, — *Dibatti l'acqua nel mortaio.*

19 Rem aliquam breuium, minimarúmque virium ita significamus; *Fuoco di paglia*; καλάμινον πῦρ. i. Ignis ex arundinibus conflatus. Notat P. Victo. vari. lecti. lib. 33. cap. 1. Huc uidetur spectâsse Ouid. 5. de Trist. Eleg. 9. — *Fuoco di paglia.*

Nos quoque floruimus; sed flos fuit ille caducus;
Flammáque de stipulâ nostra, breuísque fuit.

20 Quibus vel senectute, vel aliâ quacunque de causâ imbecillior facta est oculorum acies, adeò ut sæpe allucinentur, vel aliud quid simile patiantur, hoc suum uitium sic enunciare solent; *Io veggo l'vn due*; ἐκ δυοῖν τρία βλέπω. i. Ex duobus tria uideo. Suidas. — *Veder l'vn due.*

21 Cupientibus monere, ab improborum commercijs esse abstinendum, quia inde boni mores corrumpuntur, vulgatum illud conuenit; *Chi s'impaccia col zoppo, gli sen'attacca*; ἂν χωλῷ παροικήσῃς, ὑποσκάζειν μαθήσῃ. i. Si iuxta claudum habites, subclaudicare disces. Plutar. in lib. de Libe. Educan. — *Chi s'impaccia col zoppo, &c.*

can. Sumuntur a conuersantibus mores. Sene. lib. 3. de Irâ. Cum quo asi quis iungitur, talis erit. Arnobius in Comment. Psal. 17.

Οἱ κακοὶ, οὐ πάντως κακοὶ ἐκ γαστρὸς γεγόνασιν,
ἀλλ' ἀνδράσι κακοῖς συνδήμενοι εἰλίλυν. i.
Mali non penitus mali ex vtero nati sunt;
Sed cum viris malis amicitiam incuntes. Theogn.

Idem ualet; *Chi pratica col lupo, impara a vrlare.*

In terra di ciechi beato, &c.

22 Vulgatissima est hęc parœmia, qua significamus, inter indoctos semidoctum haberi doctissimum, intérque mendicos principem locum tenere, cui sit taberna, vel prædiolum; *In terra di ciechi beato a chi ha un'occhio*; ἐν τοῖς τόποις τῶν τυφλῶν λάμων βασιλεύει. i. Inter cæcos regnat Strabus. Parœmi. Et Homeri interpres; ἐν τυφλῶν πόλει γλαμυρὸς βασιλεύει. i. In urbe cęcorum regnat lippus. Huic germanum; *Ogni piccola fauilla al buio riluce.* i. uertit Carolus Bouillus; Scintilla etiam exigua in tenebris micat.

Ha un piè nella fossa.

23 In hominem adrò decrepitum, ut ipsi, quod aiunt, iam silicernium parari possit, hoc vulgò iactari solet; *Egli ha un piè nella fossa*; ἕτερον πόδα ἐν τῷ σοροῦ ἔχει. i. Alterum pedem in sepulchro habet. Lucianus in Sectis. ἕτερον πόδα ἐν τῷ σορμίῳ ἔχει. i. Alterum pedem in cymbâ Charontis habet. Idem in Apologiâ. Nota etiam erat hæc parœmia Latinis hominibus: nam in l. Apud Iulianum. ff. de Fideicomiss. liberta. ita inquit Pomponius; Memor sum eius sententiæ, quam dixisse fertur Iulianus; Et si alterum pedem in sepulchro haberem, adhuc discere quidem uellẽ. Dan. Purg. cant. 18.

E tale ha già l'un piè dentro la fossa.

Dicimus etiam in hoc proposito; *Egli ha la bocca su la bara*; Nec longè abest; *E' piatisce i cimiteri*. De quo lib. 1.

Ha paura delle mosche, &c.

24 In eum, qui titubanter omnia facit, vel minima quæque, & maximè friuola pertimescens, illud iactare consueuimus; *Egli ha paura delle mosche, che volan per aria*; καὶ μύας παραπετομένας δείδει. i. Vel muscas præteruolitantes metuit. Aristo. Sept. de Rep.

Nõ dà nè 'n ciel nè 'n terra.

25 De eo, qui multa quidem effutit, sed quæ a propositâ materiâ longissimè absint, dicere consueuimus; *E' non dà ne 'n ciel, ne 'n terra*; ἔτε γῆς, ἔτε οὐρανοῦ ἅπτεται. ideſt. Neque cœlum, neque terram attingit. Lucia. in Pseudomante.

Leccarsene le dita.

26 Pulcherrimum illud; quo significamus uerbi gratiâ aliquem cibum palato maximè satisfacturum esse; *Tu tene leccherai le dita*; a Græcis ita effertur; καθεψόμενος δακτύλους. i. Digitos prærodes; ut uertit Plautus. Notat Victo. uar. lect. lib. 3. c. 24.

27 Illa etiam parœmia; ἔχω τὸν λύκον. i. Anribus teneo lupum; Ita la effecta est; *Io tengo 'l lupo per gli orecchi*; de illis, qui aliquid diu retinere non possunt, nec dimittere tutum est. Præter auctores, quos congerit Parœmiogr. utitur Aristænetus. lib. 2. Epist. 3. in fi.

28 De

28 De eo, cui hinc, atque hinc maxima impẽndent malà, adeò vt în utrũcunque inciderit, malè cum ipso agendum sit, dicere solemus; *E gli ha da sun lato il precipizio, e da l'altro i lupi*, ἔμπροσθεν χρημνὸς, ὄπισθεν λύκοι. i. A fronte præcipitium, a tergo lupi. Paroemiogr. *Ha da vn lato il precipizio, etc.*

29 Non leue in re leui maximę inter vtramque linguam cognationis argumentum est hoc. Quod Græci, referente Paroemiographo, de homine vili, nulliúsque precij digno dicunt; κορδύλης ἂν ἄξιος. i. Ne ligulâ quidem dignus; Nos, re aliquanto plus extenuatâ; *E' non male vn puntal di stringa.* *Nõ male vn puntal di stringa.*

30 Etiam nostrâ tempestate dici solet in eum, qui ex suis laboribus nihil fructus capit; *E' fa come l'asino*; ὥσπερ ὄνος βαλανέως. i. Vt asinus balneatoris. Plutar. in libell. περὶ τῆς φιλοπλουτίας. Nec dissimile; ἡμιόνου βίον ζῇ. i. Mulorum vitã agit. Ex Epigram. incerti auctoris li. 2. Titu. de Pręparcis. *Far come l'asino.*

31 Si quis videatur aggressus rem impossibilem, uel explicatu difficillimam, de ipso dicere solemus; *S'è messo a votar Arno con un cucchiaio.* Ἀτλαντικὸν πέλαγος κοτύλῃ ἐκροφῇ. i. Sic enim interpretatur Artemidorus li. B. ὀνειροκριτικῶν cap. ξ. cuius hæc verba sunt. καὶ οἱ παλαιοὶ τὸν μακρὰν ἀποδημίαν ἀποδημήσαντας, εἰς ᾅδου πορεύεσθαι ἔλεγον. i. Veteres, qui longiorem profectionem suscepissent, ad Inferos proficisci dicebant. 35 Qui, vitijs relegatis, ad bonam frugem redeunt, dicuntur a nobis; *Tornare a Maria.* Vel simpliciter *Tornare alben fare*; vt alibi notatum est. Quod si huiusmodi, more deinde immutato, iterum uitijs se applicarent, dicerentur; *Ritornare al vomito*; πρὸς τὸν οἶτον ἔμετον ἐπανελθεῖν. i. Ad vomitum *Ritornare al vomito.*

mitum redire. Nazianze. Et Theodo. Illud Sapientis huc optimè quadrat. ὥσπερ κύων, ὅταν ἐπέλθῃ ὅτι τὸν ἴδιον ἔμετον, καὶ μιαντὸς γένηται. ἕτως ἄφρων τῇ ἑαυτῦ κακίᾳ ἀναστρέψας ὅτι τὴν ἑαυτῦ ἁμαρτίαν. i. Quemadmodum canis, reuersus ad proprium uomitum, abominabilis fit: sic insipiens, qui ex malitiâ suâ redit ad peccatum suum. cap. 27.

Bestia bestiã nouit. Aristo. Rhetor. 1. ἔγνω δὲ φὼρ τε φῶρα, καὶ λύκος λύκον. i. Furémque fur cognoscit, & lupus lupum. Idem in Septi. Mora. Eudemiorum. In eodem proposito vsurpant nostræ mulieres illud quasi ænigma; *Ogni uccel canta'l suo uerso.*

Trarre'l calcio contr'a lo sprone.

De eo verò, qui, cum leuiori obeundo videatur impar, munus tamen grauius sibi deferri postulat, dicimus; *Non puo'l uitello, e uuol portare'l bue.* Quò spectat illud Apulei; ex lib. de Rep. Qui celocem regere nequit, onerariam petit.

E' figliuol di suo padre, &c.

50 Quoties significare volumus, excelsos animos nihil curare leuiũ, vulgariumque hominum iniurias, dictitare solemus, *La Luna non si cura dell'abbaiar de' cani*; *L'elefante non sente il morso della pulce*; κώνωπος ἐλέφας ἰνδὸς οὐκ ἀλγύζει. i. Culicem non curat Elephantus Indicus. Phalaris, vel potius, vt etiam sentit Politianus Epist. L. lib. 1. Lucianus in Epistolis Phalaridis. Quam paræmiam alij transferunt ad id, quod simpliciter dicimus, *Delle mentite de' poltroni non se ne fa stima*. Prędicto confine illud Publij Syri, Inuidiam ferre aut fortis, aut fœlix potest.

Aggiugner fuoco a fuoco.

51 Etiam nos in eâdem sententiâ dicimus, *Non bisogna aggiugner fuoco a fuoco*; *Non bisogna metter carboni sopr'alla brace*, ac Græci, vt est apud Platonem, οὐ χρὴ πῦρ ὑπὶ πῦρ ὀχετεύειν. i. Non decet ignem igni inducere: quãdo significare volumus exempli caussâ non sinendos esse adolescenteis, cum mulieribus familiariter versari, quippe cum in tali ætate homo maximè Venereis cupidinibus flagret, & mulier Veneris sit ignis. Significat etiam, non esse ità percitum magis accendendum. Quod aliter ex Horatio, Non est oleum camino addendum.

Misura i danari a staia.

52 De admodum diuite dicere solemus, *E' misura i danari a staia*, μεδίμνῳ ἀργύριον ἀπομετρεῖ. i. Modio pecuniam metitur. Suidas.

Cosa vecchia.

53 Vbi quis aliquid dicit, iam apud omneis diuulgatum, uel quod ipse aliàs non semel protulerit, dicere solemus, *Ell'è vecchia*, ἀρχαῖα λέγεις. i. Veterata vaticinaris. Paræmiographus. Vetera vaticinaris: dixit Plau. in Pseudo. In hoc etiam proposito effertur a plebeculâ *Angelicatãdes*, *Dagli quelle cattiuacce*. Pro quo enunciari solet ironicè: Illi quidem euangelia. Vocem Euangelia, qua utitur Cicero non semel, optimè exponit Vlpianus in l. Falsus. π. de Furt. i. Mercedem pro rei inuentæ, uel repertæ nuncio.

Innanzi si conosc'vno, &c.

54 A Græcis, referente Adagium Aristotele libro Moralium octauo, dimanauit hoc uulgatissimum, ac sententiæ notissimæ; *Innanzi si conosc'vno, bisogna consumare vn moggio di sale*, οὐκ ἐστὶν εἰδῆναι ἀλλήλους πρὶν λεχομένους ἅλας συναναλῶσαι. i. Fieri non potest, ut nos mutuò pernoscamus, antequam sális, quem dicunt, modium pariter absumpserimus. Sic uertit Paræmiogr. Huc pertinet illud Coluandri: Nulla merx difficilior conitu, quàm homo.

55 In plureis moribus omnino simileis iactari solet, *Son d'un pelo, e d'vna lana*;

lana. Tutti ſon della medeſima pannina, πάντες τῦ αὐτῦ λίνε εἰσὶ. πάντες τῆς αὐτῆς καννάβεως εἰσὶ. i. Omnes ſunt ex eodem lino. Omnes ſunt ex eâdem cannabe. Euſtathius in Odyſſ. χ. In quam ſententiam Terentius. Vnùm cognoris, omneis noris. Et nos inſuper, *Piglian uno, e gli hai preſi tutti.* *Della medeſima pãnina.*

56 De exiguo munuſculo, quod aſperginis uice nix humectet quodammodo labra, tantùm abeſt, ut palatum imbuat, hoc eſt animum expleat, dicere ſolemus, *E non gli toccò l'vgola. Non gli toccò i denti.* Ad quam ſententiam trahi poſſe, affirmat Euſtathius in Homerum, illud Græcorum, χείλεα μὲν τ' ἐδίλωσ', ὑπερῴοσθ' ἐκ ἐδίλωσ. i. Labra non palatum rigauit. *Nõmi toccò l'vgola.*

57 In hominem plus æquo curioſum, atque a communi hominum notitiâ abſtruſa cognoſcere laborantem, iactare conſueuimus, *Vuol ſaper, che fuſſe prima, ò l'ouo, ò la gallina*, τὰς ἐν ἄδου τριακάδας ζητεῖ. i. Inferorum Triacadas inquirit. Manutius in Addita: ad Chiliadas. Sed hîc adnotãdum eſt, quæſtionem illam, unde ortum duxit noſtrum adagium, non eſſe recens inuentum, ſed uel uſque Plutarchi temporibus a doctioribus agitatam fuiſſe. Nam ipſe Philoſophus in ſecundâ Conuiualium Quæſtionum Decade, Sectione tertiâ, eam his uerbis proponit, πότερον ὄρνις πρότερος, ἢ τὸ ὠὸν ἐγένετο. i. Vtrum fuerit prius gallina, an ouum. Fabri ferrarij ex arte ſuâ ad hoc propoſitum tranſtulerunt. *Vuol ſaper, che fu fatto prima, ò l'incudine, o'l martello.* *Vuol ſaper che fuſſe prima, &c.*

58 Sunt nonnulli, quos tentare quidem non piget, ſed citiſſimè defatigantur, ac ſtatim quaſi animo cadunt: quos ad perſeuerantiam animare hoc dicto ſolemus, *Al primo colpo non cade l'albero*, πολλαῖσι πλαγαῖς δρῦς πίπτει μάλα. i. (ut uulgò uertitur) Multis ictibus deijcitur quercus. Extat in Diogeniani Collectaneis. Boccacius dixit, *Per lo primo colpo non cade la quercia.* Fabu. 69. *Al primo colpo nõ cade l'albero.*

59 Græci ex Euſta. in Home. Odyſſe. ε. infœliceis homines appellabant, ἐν τετράδι γεγενημένους. i. Quartâ Lunâ natos: & nos, *Tagliati a cattiua luna*, ſumptâ, ut apparet, metaphorâ a arboribus non inciſis, quotâ Lunâ blatras pati non ſolent. Vide ibi Euſtathium: multa enim de numero quaternario non inutilia affert. *Tagliati a cattiua Luna.*

60 Si quem uideamus, nec ipſum aliquâ re uti, nec alios eâdem uti ſinere, dicere ſolemus; *E' fa come il can dell'orticlano*, ὡς κύων ἐν τῇ φάτνῃ. i. Canis in præſepi. Meminit, & expoſuit Lucianus aduerſus indoctum. Item Euſtathius in Home. Ilia. Ν. ὡς κύων ἐν φάτνῃ. i. Canis in præſepi ἐπὶ τῶν μήτε χρωμένων, μήτε ἄλλοις διδόντων. i. In eos, qui neque ipſi utuntur, neque alios uti ſinũt. Noſtra parœmia uidetur originẽ traxiſſe ex eâ fabellâ. Capra eſuriens, hortum quemdam, ubi uirentia uiderat olera, intrare cupiebat. Canis uerò moloſſus, quem olitor cuſtodem appoſuerat, non permittebat, minitans ei mortem, ſi pedem introferre tentaret. Cui capra; Quid, inquit, me eſſe prohibes, quæ tibi nulli ſunt uſui? Nullâ, reſpondit canis, ratione hoc facio; ſed quia ita mihi inſitum eſt a naturâ. *Far come il can dell'orticlano.* *Apologus.*

61 Quando ſignificare volumus, potentiorum diuitias inferiorum damnis creſcere; ac, niſi eſſent, quos emungerent, eas non auctum iri, a Græcis mutuati, dicimus; *Se'l ſerpente non mangiaſſe del ſerpente, e' non ſi farebbe drago*, ὄφις οὐκ ἂν μὴ φάγοι ὄφιν, δράκων οὐ γένοιτο ἄν. i. Serpens ni edat ſerpentem, draco non fiet. Paræmiogr. Idem valet, *Chi per ſe raguna, per altri ſparſpaglia*. Quò pertinent Publiani Mimi:

Se'l ſerpente non mangiaſſe, &c.

Lucrum ſine damno alterius fieri non poteſt.
Bona nemini hora eſt, ut non alicui ſit mala.

Hoc etiam ſubobſcurè ſignificare cenſeo: Ortus unius, alterius interitus. Quod in prouerbium ceſſiſſe, innuere videtur Nemeſius Philoſophus de Naturâ hominis cap. 5. ubi inquit. Quamobrem alterius ortum, interitum eſſe aiunt alterius, & viciſſim alterius interitum, alterius ortum. Plura ſunt apud Cogna.

62 Diluente vinum pincernâ immodicâ aquâ, in eum ſic inuehi ſolet. *Tu ſe buono a meſcere a' ranocchi*, βατράχοις οἶνον χέεις. i. Ranis uinum infundis. Ranis vinum præminiſtras. Apud Athenæ.

E' buono a meſcere a ranocchi.

63 De rebus claris, quæ nullius egent explicationis, inter cætera dici ſolet, *E' lo conoſcerebbe un bambino*, δῆλον καὶ παιδί. i. Vel puero clarum.

Lo conoſcerebbe un bambino.

64 Plato † καὶ τυφλῷ δῆλον. i. Vel cæco clarum. De hoc meminere Phalereus in Libello de Elocutione: Euſtathius in Home. Odiſſ. Θ. P. Victori. var. lectio. lib. 11. cap. 3. cuius hæc ſunt verba. Nos quoque in patrio noſtro ſermone prouerbio hoc utimur. Et ſanè in mentem facilè cuilibet venire poſſet, de re certâ, perſpicuâque εὐφυολιῶς dicere, illam cæco etiam apparere. Hactenus Victo. Dicimus ergo; *E' lo vedrebbe un cieco. E' lo vedrebbe Cimabue, che nacque cieco. E' lo vedrebbe Pantoffo, ch' anca gli occhi di panno.*

Lo vedrebbe un cieco.

65 Ex illo celebri loco D. Lucæ in Euangelio, cap. 6. τί δὲ βλέπεις τὸ κάρφος τὸ ἐν τῷ ὀφθαλμῷ ἀδελφοῦ σου, τὴν δὲ δοκὸν τὴν ἐν τῷ ἰδίῳ ὀφθαλμῷ οὐ κατανοεῖς; Quid autem vides feſtucam in oculo fratris tui, trabem autem, quæ in oculo proprio eſt, non animaduertis? deductum cenſeo hoc noſtrum, *I bruſcoli altrui l'offendono, e non vede le trauiſue*. Extat etiam apud D. Matthæ. c. 7. Quod Romanorum vulgus; Verrucis offenditur, ac tubera habet. Huc pertinent Horatij verſus;

I bruſcoli altrui l'offendono &c.

Qui, ne tuberibus proprijs offendat amicum,
Poſtulat, ignoſcat verrucis illius æquum eſt.

Senſus eſt notiſſimus de uitijs maioribus, ac minimis.

Lauare il capo.

66 Quod nos ἀντὶ τοῦ ἐλέγχειν dicimus, *Lauare il capo*, a Græcis originem deduxit, qui in hanc ſententiam dicebant πλύνειν. Artemidorus lib. 1. c. 4. ἐνυπνοκριτικῶν. πλύνειν γὰρ καὶ τὸ ἐλέγχειν, ἔλεγον οἱ παλαιοί. i. Lauare veteres coarguere dixerunt; ubi citat teſtem Menandrum. Iulius Pollux Onomaſti. lib. 7. cap. 11. agens περὶ ὅσων ἐστὶ τὸ πλύνειν τὰς ἰδίας, non longè a principio inquit; ἀφ' ἧς καὶ τὸ λοιδορεῖν, πλύνειν. καὶ πλυνόν με ποιεῖς, ἢ κωμῳδία φησὶν, ἢ γυναῖ ἐξετασίζεις, ἢ διαβάλλεις. i. Vnde & conuiciari, lauare. Et lotum me reddis, Comici dicunt, pro, calumniaris, aut dehoneſtas.

67 Iuxta Horatianum illud. Ode 16. lib. 3.

Aurum per medios ire ſatellites,
Et perrumpere amat ſaxa, potentius

Ictu fulmineo: ſignificare volentes, nullum eſſe incœptum tam arduum, quin vel ab imperitis perfici, nullamque nationem tam feram, quin vel a timidis ſuperari poſſit, dummodo præſtò ſint nummi, dicere ſolemus, *La lepre piglia'l leone con il laccio d'oro*, ἕλκει λαγὼς λέοντα χρυσίνῳ βρόχῳ. i. Lepus leonem trahit aureo laqueo. Manutius in Appendice ad Chilia. Huc ſpectat alterum illud; ἀργυρέαις λόγχαις μαχόμενος, πάντα νικᾷ. i. Argenteis haſtis pugnans omnia vincit. Paræmiogr. τὰ τοῖς ὅπλοις ἀδιάλωτα χειροῦται τῷ χρυσῷ ῥᾳδίως ὅτι καταπολεμῶνται. τῷ ἀργυρίῳ ὑποτάσσεται τὰ σύμπαντα. i. Quæ nequeunt armis capi, facilè expugnantur auro. Nihil non ſubijcitur argento. Diod. Quibus admodum ſimile hoc noſtrum, *Il martel d'argento ſpezza le porte di ferro*. Philippi Macedonis apophthegma id etiam comprobat. Cum enim arcem quamdam capere deſtinâſſet ualdè munitam, retuliſſéntque exploratores, prorſus eſſe difficile, atque adeò etiam impoſſibile: percontatus eſt, an aſinus auro onuſtus poſſet accedere, ſignificans, omnia auro expugnari. Non pigebit adſcribere facetiſſimam fabellam De ruſtico per vocem hædi ad Iuriſconſultum admiſſo. Ruſticus quidam graui lite implicitus, ad quemdam Iuriſconſ. acceſſerat, ut eo patrono ſeſe explicaret. At ille, negocijs impeditus, renunciare iubet, ſe non poſſe illi eo tempore vocare; quare abiret, alias reditурus. Ruſticus, qui huic plurimùm fidebat, etiam, atque etiam rediens, nunquam admiſſus eſt. Tandem hœdum adhuc lactentem, & pinguem ſecum deferens, ante ædes Iuriſperiti ſtabat, & hœdum vellicans, ipſum balare cogebat. Ianitor, qui ex præcepto heri dona portanteis ſtatim admittere ſolebat, auditâ hœdi voce, ianuam illico aperiens, hominem introire iubet. Tunc ruſticus ad hœdum conuerſus; gratias, inquit, ago, hœdule mi, qui tam facileis mihi has effeciſti fores. Poſſem hîc multa alia coagmentare, ut illud Quidij notiſſi. Munera, crede mihi, placant, &cet. quod præter auctores, quos recenſet P. Victo. var. lectio. lib. 12. cap. 5. affertur etiam loco prouerbij ab Euſtathio in Homc. Iliad. lib. ξ. Sed nolo pluribus inſiſtere.

77 In quam ſententiam vſurpata fuerit a Græcis parœmia ὄνος λύρας, non eſt mei inſtituti explicare, cum actum agere, vt eſt in prouerbio, videri nolim. Nos vtique videntes, aliquem artificium tentare, ad quod omnino ineptus appareat, dicere ſolemus; *Com'all'aſino il ſonar di lira. Come l'aſino alla lira.* Parœmiographus non ſemel τὸ ὄνος λύρας, exponit; Aſinus ad lyram; & paulo ante finem talis Adagij innuit, non incommodè torqueri poſſe ad illud ſignificandum, quod dictum eſt de noſtro. Anche la mosca ha la sua collera.

Sed sanguinis pro lacte fontes effluent.

93 Quod nos vulgò simpliciter dicimus, nil aliud præter quàmquòd ipsa verba sonant, intelligentes; *I cani abbaiano, a chi e'non conoscono*; reperitur etiam apud Græcos; κύνες βαύζουσιν, ὃν μὴ γινώσκωσιν. i. canes in ignotos latrant. Sed apud ipsos pulcherrimus erat prouerbij vsus: hoc enim significare volebant, quando ad magistratum accederet aliquis iandiu cognitus, miniméque in administrandâ Rep. nouus, inuidiæ nihil excitari, cum inuidia eos solos appeteret, qui tum primùm ad Reipu. gubernacula accederent. Plutar. in Opusculo, cui Titulus; εἰ πρεσβυτέρῳ πολιτευτέον. Huc spectare videtur Horatius in Satyris Eclo. 6. lib. 1. *I Cani abbaiano, a chi e'non conoscono.*

Inuidia accreuit; priuato quæ minor esset. & cætera vsque ad τὸ Omneis mortaleis. Quis affirmare possit, primos auctores nostrum quoque in hanc sententiam non vsurpâsse?

94 Hæc descripta sunt ex lib. 25: cap. 14. Var. lect. P. Victo. Quod a Græcis antiquitùs dicebatur, prouerbiúmque vim in eo sermone habebat; πρὶς ἓξ βάλλειν [i. ter sex iacere.] (dici autem solitum erat de illis, qui summũ, inopinatúmque bonum consequerentur) id etiam a nobis vulgò fertur; in oréque est omnis multitudinis, cum idem significare volumus: vel potius cum ostendimus, quempiam maximum malum, & quod pœnè ipsũ iam oppressérat, euasisse. Quamuis non tertiâ parte totius numeri triplicatâ id pronunciemus, sed integrum illum numerum ponentes, dicamus; *Trarre diciotto.* Hactenus Victorius. Cuius secundæ explicationi si acquiescimus, alterum illud prædicto eamdem habet sententiam; *Cascare in piè, come le gatte.* De quo alibi. *Trar diciotto.*

95 Ex hac etiam officinâ prodijt, quod fertur; *O asso, ò sei*; πρὶς ἓξ, ἢ πρεῖς ἕνας. i. Ter sex, aut treis vniones; quo nos vtimur, quãdo nullam mediocritatem seruari, ostendere volumus, vt de Tigellio scripsit Horatius: *O' asso, ò sei.*

Nil æquale homini fuit illi: sæpe velut qui
Currebat, fugiens hostem: persæpe velut qui
Iunonis sacra ferret. Habebat sæpe ducentos,
Sæpe decem seruos, &c.

Græcæ paræmiæ inter alios meminit Euſtathius in Ilia. Π. Et Odyſſ. Α. Cuius in Odyſſeâ verba ſunt hæc; ἐχρῶντο οἱ παλαιοὶ τρισὶ κύβοις, καὶ οὐχ ὥσπερ οἱ νῦν, δυσί. ὅθεν καὶ παροιμία ἐστὶ τὸ μηδὲν διαμίσγειν κυνδυνευόντων, τὸ, ἤτριν ἕξ, ἢ τρεῖς κύβους. ἀπὸ τοῦ μεγίστου, καὶ ἐλαχίστου ἀριθμοῦ &c. i. Antiqui utebantur tribus teſſeris, & non, vt recentiores, duabus. Vnde paræmia illa de mediocritatem nihil ſeruantibus, aut ter ſex, aut treis teſſeras; a maximo, & minimo numero. Meminit quoque Iulius Pollux de Rerum Vocabu. lib. 9. Quòd hi numeri in iactibus eſſent extremi, atque inde elicerentur a Græcis contrariæ loquendi formulæ, optimè etiam percipitur ex illis verſibus Epicharmi Comici citatis a Stobæo in Sermone 67.

96 In eos, qui, dum plus nimio ad lucrum attenti ſunt, ſuſpicionem afferunt, ne uniuerſorum iacturam faciant, uſurpari ſolet a nobis; *Chi troppo s'aſſottiglia, ſi ſcauezza*; Non eſt autem tam ſimile lac lacti, quàm noſtro illud Luciani; ἀποῤῥαγήσεται τεινόμενον τὸ καλώδιον. i. Abrumpetur tenſus funiculus. De hac paræmiâ meminit etiam Ariſtenæ. & nos infra.

ſſiden Sophi. Qui in Apologiâ Communi inquit. πορεύεσθε παρὰ τὺς πλείονας. Et πλείονες οἱ τετελευτηκότες ab Heſychio, νεκροί verò a Suidâ dicũtur. Prædictum oraculum non ita enucleâſſet primus ille Gymnoſophiſta, qui, interrogatus ab Alexandro, plureísne viuos eſſe putaret, an mortuos, viuos reſpondit; mortuos enim non amplius eſſe. Verba Plutarchi, qui huius meminit in Vitâ Alexandri, ſunt hæc; ὁμὸν ἔν ποτε ἐρωτηθεὶς, πότερον οἴεται τὺς ζῶντας εἶναι πλείονας, ἢ τὺς τεθνηκότας, ἔφη. τὺς ζῶντας· ἔτι γὰρ εἶναι τὺς τεθνηκότας. SENTENTIAE PROVERBIALES Græcis, atque Italis eædem.

175 Cum fœlicitatem comitetur inuidia, miſeratio verò calamitatem: quò reſpexiſſe videtur Heliodorus Aetiopi, lib. 6. οἶκτος μᾶλλον, ἢ φθόνος πέλας· ἡ πτωχία. i. Commiſerationi propior eſt paupertas, quàm inuidia. Et Sophocles in Aiace Flagellif. πρὸς τὸν ἔχοντ' ὁ φθόνος ἕρπει. i. Ad fœlicem ſerpit inuidia; Vnde Ouidius, Summa petit liuor. Quam ſententiam, vt hoc etiam obiter dicam, nos pluribus modis ſignificare ſolemus; vt παροιμιακῶς: *L'albero più fruttifero è perſeguitato dal verme. La ſaetta non cade in luoghi baſſi. I migliori alberi ſono i più battuti*. Et ἁπλῶς *La miſeria man ca d'inuidia*. Cum, inquam, fortunatis hominibus vulgò inuideatur: hinc, vt ex Herodoto in Thaliâ, dicebant Græci; φθονέεσθαι κρεῖσσόν ἐστιν, ἢ οἰκτείρεσθαι. i. Præſtat inuidioſum eſſe, quàm miſerabilem. Item, κρέσσον οἰκτιρμῦ φθόνος. i. Melius eſt inuidia, quàm miſericordia. Pind. apud Stobæum. Nos autem; *E' meglio eſſere inuidiato, che compaſſionato*. Et cum Homœoteleuto; E' meglio eſſere inuidiato, &c.

Eos quidem, qui lucente ſole, iter faciunt, ex neceſſitate ſequitur umbra: Eos uerò, qui per gloriæ viam gradiuntur, comitatur inuidia. Et Apollodorus Comicus; *Apophthegm.*

Item; *Non è virtù ſenz'inuidia.* οὐδὲ κορυδαλὶς ἄνευ λόφου. i. Alauda non eſt ſine criſtâ. Huc etiam pertinet dictum illud. Siquando fiat mentio cuiuſpiam rei, quam nos nihili faciendam cenſeamus; de eo, qui ipſam poſſidet, dicere ſolemus; *Abbiſela ſenz'inuidia.* i. Habeat ſine inuidiâ.

176 Quemadmodum nihil eſt uero amico utilius, ita nihil uidetur eſſe cognitu difficilius. Hinc Iſocrates tam multa præcipuè ad Demonicũ: Neminem aſcribendum eſſe in amicorum numero, niſi prius cognitum ſit, quomodo ſe erga alios geſſerit: neque diutius aliquo tanquam amico eſſe utendum, quiu de eo periculum factum ſit. Res autem aduerſas optimum eſſe amicorum indicem, illis uerbis oſtendit: *τὸ μὲν γὰρ χρυσίον ἐν τῷ πυρὶ δοκιμάζομεν, τοὺς δὲ φίλους ἐν ταῖς ἀτυχίαις διαγινώσκομεν.* i. Aurum quidem igne probamus; amicos uerò in rebus aduerſis cognoſcimus. Ex priori parte deduci poteſt illa parœmia: *L'oro s'affina nel fuoco*: quæ idem ualet, ac ſententia illa D. Pauli in Epiſt. 2. ad Corinth. *ἡ δύναμις ἐν ἀσθενείᾳ τελειοῦται.* i. Virtus in infirmitate perficitur. Et D. Ambroſ. in Hexam. Virtus in infirmitate confirmatur. Huc pertinent illa Ouidij,

FLORIS ITALICAE LINGVAE

LIBER QVARTVS.

QVOD tria Europæ eloquia, Gallicum, Hiſpanum, atque Italum maximam cum Latino Cognationem habeant, a nemine cenſeo in dubium uocari poſſe. Vtrum uerò ex Latini ſermonis corruptione noſtrum cum reliquis exortum ſit, an antea quoque rudi ſaltem ratione uſurparetur, ipſe profectò ſententiam meã in mediũ proferre non auſim. Affero quidem, me in paucis Antiquorũ Fragmentis multa reperiſſe, quorũ maior pars, ut dixit Iuſtinianus, ab aulâ receſſit, & tamen noſtris quàm ſimillima eſſe conſpiciũtur. De his igitur iudicent ſapientiores, & qui ſuſpicionẽ gignere non poſſunt: mihi ſatis erit non uerbis, ſed reipsâ donari aliis probare, in quod a principio animũ intendi. Sed antequam, aggrediar Catalogum quarundã non uulgarium dictionum, quæ ex Romanis Etruſcæ effectæ ſunt, ut illius, quod in Præfatione propoſui, aliqua fiat probatio, propono breue exemplum nonnullarum uocum, quas Græcos, ac Latinos a Barbaris deſumpſiſſe lectitando obiter obſeruaui. Siquis autem noſtris, ut pote paucißimis, non acquieſcit, conſulat Helleniſmum Angeli Caninii Anglarenſis: ibi enim quàm plurimæ ex diuerſis nationibus collatæ inueniuntur.

Græcæ Dictiones a Barbaris deſumptæ.

Τυμός. Tumulus. Lybicum eſſe uocabulum ſcribit Euſtath. in Odyſſ. &

Sciendum autem, quas voces origine Hebræas Latini habent, eásdem & Græcas esse; quoniam literæ primùm ex Phœniciâ a Cadmo in Græciam latæ, deinde a Græcis ad nos peruenerunt: quod non in facci dictione tantùm, sed & in perâ, Oceano, camelo, & similibus annotari potest. Hæc Alcia. in Parer. lib. 1. cap. 8. Caninius deducit Κάμηλος Græcorum a Gemal Punicâ.

Zura vox Afrorum, teste Plinio, qui eam usurpat lib. 24. cap. 13. Et est paliuri semen.

Cur ergo mirum fuerit, vitioque vertendum, si nostri quoque ad Græcorũ, ac Latinorum imitationem aliquot voces, easque pulcriores præter Græcas, ac Romanas ex alijs linguis sibi asciuerunt? Enumerantur nonnullæ ab Illustris. Bembo Prosarum lib. 1. quas a Gallis Narbonensibus (vulgò dicuntur *Prouenzali*) vult esse desumptas. Liber est notissimus, ac tritus omnium manibus, ideo non transcribo. Non paucas etiam ex Bembo, & alijs congerit P. F. Giambullarius in Opusculo suo, qui Gellus inscribitur; quas ab antiquis Etruscis, a Syriacis, Gallicis, Germanisque deducit. Earum verò, quæ ex Punico, ac Syriaco eloquio proferuntur a Caninio, quia non simul, sed sparsim inueniuntur in prædicto eius Opere, ideo quasdam inde huc exempli causâ transferre non piguit.

Has linguæ Syriacæ acceptas refert Caninius.

Ambra. ab Ambar. *Botta*. Tabo. Per metathesin. *Bugia*. Budia. *Caraffa*. Garaba. *Cremesì*. Carmes. *Gaglioffo*, & *Gaglioffa*. a Gaiaf, & Gaiafa; quæ Adulterum, & Adulteram significant. *Gara*. Ghera. *Ghirlanda*. Guirnalda. *Guisa*. Ghisa. *Ronca*. Romcha. *Pezza*. Pitha. *Zana*. Thana.

8 Exempli gratiâ, numerante in promptuario dominâ, vel matre esculenta, ut puta pira, pruna,& huiusmodi, famuli, vel filij puerili ætate hoc uidentes, ac tamen edere constituentes, ita secum mussitando inquiunt; *Delle pecore annouerate se ne mangia il lupo*; Lupus non curat numerum. Idem. *Delle pecore annouerate, &c.*

9 Affirmantes, aliquem esse optimâ, ac firmâ valetudine, dicere solemus; *Egli è piu sano che pesce. Piu sano d'una lasca*. Pisce sanior. Ex Iuuen. *Piu sano, che pesce.*

Paræmiogra. Eodem pertinet hoc Plauti in Pseudolo. Proba merx facilè emptorem reperit. Nec longè dissimile illud Leosthenis. Vera virtus non eget alienis præconijs. *Il buon vino, &c.*

Fa di me alla palla;

19 In eodem propoſito vſurpatur hic verſus Latinus vulgatiſſimæ ſententiæ;

Crine ruber, niger ore, brevis pede, lumine læſus;
Rem magnam præſtas, Zoile, ſi bonus es.

Vnde præceptum; Caueto a ſignatis. Notat Gilb. Cogna.

20 Pulcherrima mihi videtur hæc parœmia, præcipuè ſi aliquantùm trãſferatur, veluti ad improbos alicuius ciuitatis populos, qui placidum nacti principem, ſuis facinoribus eum ad ſæuitiam compellant: *L'ammalato diſubbidiente fa'l medico crudele*;

L'Ammalato diſubbidiente, &c.

Crudelem medicum intemperans æger facit. Publius Syrus.

21 Aut nihil, aut Cæſar vult dici Borgia; quid ni?
Cum ſimul & poſſit Cæſar, & eſſe nihil?

O Ce-

O Ceſare, o Niccolo, Et in eâdem ſententiâ; *O principe, o marinaro; O baratziere, o caualiere; O polli, o grilli*. Græci pro his vſurpâſſe uidentur; βασιλεὺς, νήϊνος. i. Rex, aut alinus. Exponit Euſtathius in 6. Odyſſ. eius originem narrans. *O Ceſare, o niente.*

22 Rationem afferendo, quare ſcelerati penitus euitandi, ac fugiendi ſint, dicere ſolemus; *Vna pecora marcia ne guaſta un branco*; *Vna pecora marcia ne, &c.*

Morbida facta pecus, totum corrumpit ouile.

Et Iuuenalis Saty. 2. -- grex totus in agris

Vnius ſcabie cadit, & porrigine porci.

Alij ad huius imitationem; *Vna pera fradicia* [ſic vulgus pro *fracida*] *ne guaſta un monte*. Huc pertinet opilionis fabella. Hic in agris lupi catulo reperto, domum tulit, atque inter canes ouium cuſtodes aluit: qui, vbi adoleuit, oueis occidere, canésque, ut vnà ſecum comederent, edocere cœpit. Opilio id ſentiens, lupum quidem occidit, canes tamen, ut ab ouium cæde temperarent, non poterat prohibere. Tunc ſecum. Meritò plector, qui lupum canibus immiſcui; vnde oueis occidere didicerunt. Allegoria eſt; Bonotum mores malorum conſuetudine corrumpi. Nec prętereo, alibi in Italiâ priorem parœmiam cum Homœoteleuto efferri; *Fabula.*

Vna pecora infetta

Eiuſdem ſententiæ eſt; *Torre*, vel, *Furar le moſſe*; Et, quo utitur Matthæ. Villa. *Pigliare a vno i dadi.* *Tor la palla di mano.*

25 De illo, cui fœliciter omnia ſuccedunt, cuíque fortuna in omnibus arridere uidetur, dicere conſueuimus; *Egli è figliuol dell'oca bianca*; *Egli ha il uento in poppa*; Albæ gallinæ filius. Iuuenalis. Secundis nauigat uentis. Parœmiogra. *E' figliuol dell'oca biãca.*

26 Siquis ab alicuius rei veritate longiſſimè abſit, dici ſolet; *Tu ſe in un altro paeſe*; In aliâ les regione; Et illud; *Donde Diauol ſe tu*? Quò terrarum raperis? Parœmiogra. οὐκ οἶδ', ὅποι γῆς φέρεται. i. Neſcit, vbi terrarum fertur. *E' in un altro paeſe.*

27 De homine maximè improbo, ſceleratóque vulgò dictitant; *E' il più triſto fante, che vadia ſu due gambe*; Bipedum nequiſſimus. Cicero in Clodium; & Plinius in Regulum quemdam in Epiſto. Dicitur etiam. *Più triſto di tre aſſi.* Et Pulcius in Morgante; *Egli è il caſſo de gli ſciagurati.* *Più triſto fante, che vadia, &c.*

Cum

29 Cum significare volumus, magnates non se mutuò lædere, sed odium, atque inimicitias in dispares exerceri solere, dicimus; *Corbi con corbi non si cauano gli occhi.* Quò spectat, nisi fallor, illud Varronis de linguâ Latinâ, lib. 6. in princ. Canis caninam non est. Et Antonius Monach. lib. 3. cap. 26. Rerum a Francis gestarum ad verbum dixit; Coruus corui oculum non eruit. † Hebræi quoque, vt notauit Godofredus in priori suorum Prouerbiorum Centuriâ, in hanc sententiam inquiunt; Lupus alterius lupi carnem non edit. Quod alicubi in Italiâ; *Il lupo non mangia il lupo.* Et Florentiæ. *Ogni carne mangia il lupo, e la sua lecca.* Horatij locus est notissimus.

Corbi con corbi, &c.

Ogni carne mangia il lupo, &c.

Neque hic lupis mos, nec fuit leonibus
Vnquam, nisi in dispar, feris.

Ad idem propositum aliqui; *Vn asino non morde l'altro.*

31 Non vnum, sed plureis sibi parandos esse portus, vt, fæuientibus infortuniorum procellis, locus non desit, quò tutò confugi possit, hac nostrâ paræmiâ admonemur; *Mal per quel topo, che non ha, che non fesso solo;* Quæ cum illâ ex Plauti Truculento non paruam cognationem habere videtur. Mus non vni fidit antro. Verba Plauti sunt;

Mal per ql topo, &c.

Sed tamen cogitato, mus pusillus quàm sit sapiens bestia,
Aetatem qui uni cubili nunquam committit suam,
Quia, si obsideatur unum, aliunde præsidium gerit.

32 Significare uolentes iuxta Isocraticum illud; τὸ τῆς πόλεως ὅλης ἦθος ὁμοιοῦται τοῖς ἄρχουσιν. i. Totius ciuitatis mores ad principum exemplum conformantur. Quod videtur exprimere uoluisse Cicero in primo Famil. cum dixit; Quales in Rep. principes sunt, tales reliqui solent esse ciues; significare, inquam, uolentes, inferiores facere solere; quæ a superioribus fieri vident, dicere solemus; *Il giouenco impara dal bue*; Ex vulgatiss. illo pentametro;

Il giouenco impara dal bue.

A boue maiori discit arare minor.

33 Eamdem sententiam habet Plautinum illud in Mostellariâ; Simul sorbere, ac flare difficile; atque hoc a vulgo usurpatum; *Non si può bere, e zufolare;* Quò pertinent etiam illa; *Non si può sonare e ballare; Portar la Croce, e sonar le campane.* Pro quibus rustici; *Non si può piagnere, e guardare i buoi.* Et uilissimi agasones; *Non si può strigliare, e tener la mula.* i. Duo omnino diuersa; ab eodem uno, eodémque tempore perfici non possunt.

Non si può bere, &c.

34 In eum, qui in deterius usque degenerat, iactare consuetimus; *E' fa, come l'gambero.* Nepam imitatur. Plautus in Cassi. Græci κάκιον βάβυς αὐλεῖ. i. Peius Babys tibiâ canit. Paræmiographus, exponens, eius assertori ginem. Dicitur etiam; *E' fa, come Giordano.*

Far come il gambero.

35 Quoties significare uolumus, quantumuis pusillum commodum adiuuare, nullámque rem negligendam esse; unde uel minimum utilitatis aliquando desumi possit, dicere solemus; *Ogni pelo ha la sua ombra;*

Ogni pelo ha la sua ombra.

Etiam capillus unus habet umbram suam. Publius Syrus.

Ac deinde ſubdit. Quòd ſi uera lectio hæc eſt, ut arbitror, puto ualere hîc oſſum uetere cõſuetudine, quod ſtatim poëta oſtendit: uidetur enim declaratio illius eſſe, quod ſequitur, cibus: ut ſit familiaris ſermo, quo nos etiam vulgò utimur, cum quempiam veſci alienâ mensâ ſignificamus, nec parcere rei familiari ipſius: dicimus enim, ipſum vorare illius oſſa. Cadunt autem, quod Lucretius etiam tetigit, in uulnera qui occumbunt. Si vis rectè nubere, nube pari.

Sed hæc apud ſcriptores frequẽtiora, quàm, ut pluribus congeſtis opus ſit.

De quo argumento Horatius plurima in Satyris.

83 *Gli amici ſon buoni in ogni piazza;*
Chi non ha, ſe ne faccia.

gli Amici ſon buoni, &c.

Non videtur diſſimile illi Catonis diſticho.

Si potes, ignotis etiam prodeſſe memento:
Vtilius regno, meritis acquirere amicos. Et Menander;

Amicos habens, theſauros te habere cenſeas.

Phroneſium quoque Plautina:

Verum eſt verbum, quod memoratur;
Vbi amici, eſſe ibidem opes. In Tricul.

84 *La neceſſità non ha legge.* Recentiores efferunt ad verbum ex l. vni. ff. de Offic. Conſ. Neceſſitas non habet legem: ſed ego magis probauerim; Quod non eſt licitum in lege, neceſſitas facit licitum. c. Quod non eſt. Ext. de Reg. Iu. lib. 5. 85 *Chi ha la ſanità*
E' ricco, e non lo sà.

Chi ha ſanità, &c.

Sanitas eſt bonum non cognitum, niſi deperditum. Ex Cicerone. Ad hoc propoſitum Horatius. Epiſt. 12. lib. 1.

Si uentri bene, ſi lateri eſt, pedibúsque tuis, nil
Diuitiæ poterunt regales addere maius. Eodem ſpectat.

Nihil eſt in uitâ ſanitate præſtantius. in Græco. Collect.

Si plura desideras, uide Adag. Gilb. Cogna. Homini nihil utilius sanitate. Firmâ ualetudine nihil melius. Sani ægris ditiores. Sed agentes de hoc argumento generaliter, illud Areosti primo non longè dissimile vsurpare solemus.

Non conosce la pace, e non la stima,
Chi prouato non ha la guerra prima.

Laua il Giesso al Moro.

86 Siquis in ingratum beneficium conferat, *E' laua'l uiso al Moro*. Æthiopem dealbat. Ex Iuue.

87 Apud Terentium est: Vbi paulum accessit pecuniæ, sublati animi sunt. Quod nos; *Com'egli hanno quattro quattrini; e' segli rizza la cresta*. Quã posteriorem loquendi formulam a Latinis accepimus. Superbientibus enim cristas surgere, siue tolli dicebant. Iuuen.

Rizzarsi la cresta.

88 Qui ob aliquam perturbationem a mente excidit, dicitur a nobis, *Non essere in suo potere*. In quam sententiam Latini; Ex potestate exijsse. Testis est Cice. qui in 3. Tusculanâ; Itaque nihil melius (inquit) quàm, quod est in consuetudine sermonis Latini, quum exisse è potestate dicimus eos, qui effrænati feruntur, aut libidine, aut iracundiâ. Et paulo post: Qui igitur exisse è potestate dicuntur, ideo dicuntur, quia non sunt in potestate mentis, cui regnum totius animi a naturâ tributum est. Notat Paræmiogra.

Non è in suo potere.

89 Qui omnino negat, se quantumuis minimum alicui daturum, dicere solet; *No gli darei cica*: Ne cicum quidem dederim. Apud Varronem, lib. 6. De cico uide in superiori lib.

Non dar cica.

90 *Non guardar con occhio diritto*. Non rectis oculis aspicere. i. non amare, odio habere. Ex eo Bibliorum. 1. Reg. ca. 18. Non rectis ergo oculis Saul aspiciebat Dauid. Græci inquiunt; ὑ ποβλέπειν.

Guardar con occhio diritto.

91 Alicuius potestatem imminuere, uel arrogantiam reprimere, dicitur a nobis παροψαῶσες. *Tarpare uno*, metaphorâ notissimâ. Pennas incidere; dixit in hoc proposito Cice. lib. 4. Epist. ad Attic.

Tarpare.

92 Quando volumus significare, multum temporis transactum esse, e.g. ex quo aliquem non uiderimus, καταβολικῶς dicimus; *Egli è un'anno. Egli è mill'anni*. Annus est. Terent. in Heautonti. Aetas est; Sæculum est. Paræmiogra.

E' un anno, &c.

93 Cum significamus, aliquem nobis multa mala ingessisse, dicimus; *E' mi disse un monte di male*: in quo dicto illud, *Vn monte di male*, non est, nostrum inuentum; sic enim Plau. in Merca.

Monteis tu quidem mali in me ardenteis iandudum iacis.

Dire un monte di male.

94 De re maximè perforatâ. *Ell'è com'un vaglio*. Perlucet crebriùs, quàm cribrum. Plau. in Rud.

Com'un vaglio.

In

95 In Tragœdijs non esse ridendum, nec contra lugendum in rebus prosperis, cum sua cuique rei sit tempestiuitas (quod nos dicimus; *Ogni cosa ha'l suo tempo*) ita admonere solemus; *Bisogna accomodarsi a'tempi*. Tomporibus aptari decet. Seneca. Temporibus seruire decet. Cice. *Ogni cosa ha il suo tempo.*

96 Quemadmodum a nobis homo stupidus, plumbeisque vocatur; *Vn castrone*; ita a Romanis dicebatur; Veruecea statua. Plaut. in Capteiueis. *Vn castrone.*

97 Si quis certissimâ sit fide; nec unquam de ipsius probitate minima fuerit suspicio, alteri, de eo agentes, dicimus; *Tu tene puoi fidare a chius'occhi.* Dignus est, quicum in tenebris mices. Cice. ἄξιος οὗτος καὶ τοῦ ἀξίου. i. Dignus est, cui uel iniurato credas. Paræmiogr. E contrario autem de nequam dicimus. *Io non gli crederei l'Auemaria, s'io glela sentissi dire.* Ne iurato quidem ipsi crediderim. Idem. *Fidarsi a chius'occhi.*

98 Communis est nobis cum Latinis imprecatio illa: Aliquem enim peregre dimittentes, ob aliquod eius improbum facinus odio impulsi, dicimus: *Che tu non ci possa piu tornare.* Vtinam istuc perpetuum itinet sit tibi. Turpilius Comicus, citante Nonio. Nomt Vic. Var. lect. lib. 2. c. 1. Idem dicimus αἰνιγματικῶς. *Che tu faccia, come San Gallo.* *Che tu non ci possa etc.*

99 A prædicto non longè dissimile; *Vatene in mal'ora*; quod proculdubio antiquioribus Romanis in ore erat: Catullus enim Vibennios detestans, inquit; *Và in mal'ora.*

Cur non exilium, malásque in oras
Ius? Pro hoc Tranquillus, Abi Morboniam;

Et Dion in Epitomâ, εἰς κόραξας, ut notat Florens Christia. in Irenâ. De nostro meminit Victo. Var. Lect. lib. 30. cap. 2. vbi differit, an nostra dictio (*ora*) cum aspiratione scribenda sit, necne; atque affirmat, se notâsse eruditos, & accuratos viros aspiratè scribere solitos esse, intelligenteis tempus, quod initium illius infœlicis itineris esse optamus. Attamen post allatum Catulli locum ita subdit. Et si ora, cum ualet regionem non est proprium verbum nostri sermonis, planum tamen est, alios quoque nonnullos modos loquendi, ut, vigente adhuc Latinâ linguâ, vsurpari soliti erant, integros in eo restâsse, atque in ipsum radices egisse. Nam, quòd ad sententiam facit, non est dubium, quin locus sit superiori illi ratioui: dicimus enim quoque eodem animo. *Và in mal punto*, quod anceps non est, ac tempus, pusillumq; ipsius interuallum ostendit. Hæc Victo. Ego tamen cum Florente facio, nec prætendo aliud Etymon.

100 Qui pecuniam inuitus persoluit; vel potius. Cui pecunia inuito extorquetur, ita creditori suo imprecari solet. *Consumar gli poss'egli in medicine.* In morbo consumat. Senec. de Benef. lib. 4. cap. 39. *Consumar gli poss'egli &c.*

Affectus non sunt in Arte.

117 Significatur affectum non esse omnibus proprium, & quemadmodum non omnes sunt ad Artem, ita non omnes ad affectus inclinandos. *Affectus in Arte non sunt*, ex reflexis fere, *Artem non docemur amare amantes*, sed ex ipsa natura, & ex Deo. Cælum videtur esse ipse Deus, & Deus ipse cælum. Ita non omnes affectus, & ita videtur versabitur profectus. Latet in Deo, & Deus latet in cælo. Et ita non videtur humanum & humanitas in Deo.

Amplius.

Sunt ex regione plures, hic etiam significatur.

Id enim quod videtur esse videtur, & quod non, in natum cæcis dicitur, ita, ut videatur eligere vel cæcitatem esse quodammodum malum. Cæcus enim non potest certum aliquid, quod videtur, eligere, quia non videtur, non certum pulchrumque sperare. Quod enim videtur, videtur esse, quod non, videtur, nihil esse. Tunc enim videtur, nihil esse, cum non videtur.

Et amor ad Artem.

118 De amore illo, quo ex cælo descendi gratia, vel ad illum. *Et amor ad Artem*, & ad Artem amoris. Vt Plato ajebat amare. Verba ejus ejus sunt ex Socrate in Phædro. *Is autem qui recte amat amorem*, Vt hic ajunt amare. Ardens ibi, & ardens hic. Idem ibi, quod hic. Et ita videtur esse in Deo.

Et ita Deus videtur esse.

119 Quoties significatur volumen, aliquem non realium posse neque perficiendo, neque nocere, donec continuetur. *Ego hæc precabor. Hic amabo. Hic non nocebo. Hic non nocebo, dicit Cæsar, in tam, sanctis vis fuscitas dedecorum. Non hic non accipiam.* Sunt quasi, ... Non amabo non nocet, Fortunabo.

Ifti mihi optimè congruere uidetur, quod inquit Aristoteles in 3. Ethic. VSvs Ænigmatum, seu Griphorum (sirpi etiã a doctioribus dicuntur) qui in antiquorum conuiuijs, ut multi referunt, celeberrimus erat, apud nos ẽt adhuc aliquâ ex parte durat; de quo opportuniori occasione plura dicemus. Sufficiet in præsentiâ, cæteris omissis, aliquot scriptorum Italorum cum Græcis, ac Latinis exempla conferre; ut inde etiam pateant amplæ Italici sermonis diuitiæ. Idem quoque efficietur circa dicta prouerbialia per Etymologiam, siue Allusionem, quibus Florentina lingua, quatenus conijcere potui, omnium maximè abundat, ut planè percipi possit, ista nec nouum, nec omnino plebeium esse inuentum; quod nõnulli existimare videntur. Tertio denique loco de Parechesi nonnulla proferam: & omnia tractabuntur quàm paucissimis fieri poterit.

Aenigmatum, seu Griphorum collatio.

Quemadmodum in definitione Paræmiæ nõ facio cum Iulio Scaligero, ita vtrisque vlnis, vt aiunt, amplector, quæ ipse tradit de Aenigmate in suâ Ideâ. Aenigma est narratio ficta, quæ, ad veritatem relata, erit fabula. Amplector etiam, quoniam instituti nostri non est hoc in loco ista exactiùs perquirere, quæ de Griphoinquit Clearchus Solensis Peripateticus, qui ipsum apud Athenæ. lib. 10. ita describit. γρίφος πρόβλημά ἐστι παιστικὸν, προσαχτικὸν τῆς διὰ ζητήσεως δρᾶν τῆ διανοία τὸ προβληθὲν, τιμῆς, ἢ ὀπτζιμίας χάριν εἰρημένον. i. Griphus est problema ludicrum, quod imperat, ut per inquisitionem mentis inueniatur, quod quæsitum est, honoris, vel multæ gratiâ in medium prolatum. Hæc enim descriptio usui nostrorum Aenigmatum valdè accommodata est: quin etiam inde uulgò appellantur *Indouinelli*. Sed antequam huius generis nostra cum Græcis, uel Latinis conferam, nonnulla afferre libet, quæ propriè ænigmata dici possunt.

Quemadmodum nos numeris notamus nostrorum solariorum loca, quò vbi gnomonis vmbra peruenit, intelligimus, quota hora sit; sic & Græci suis numeris notabant; qui ordinatim tales erant. α. β. γ. δ. ε. ϛ. ζ. η. θ. ι.

Idem poëta in Paradiso facit Cacciaguidam ita loquentem, ubi inquit;

Al parto, in che mia madre, ch'è or santa,
S'alleuiò di me, ond'era graue;
Al sù Leon cinquecento cinquanta,
E tre fiate venne questo foco
A rinfiammarsi sotto la sua pianta. Cant. 16.

Intelligit autem, se natum esse Anno salutis Humanæ CIↃ CVI. Mars enim, quem denotat a die Incarnationis Christi ad eum, in quo ipse editus fuit, ad Leonem reuersum esse quingenties quinquagies ter, suum naturalem cursum peragit duobus annis Solaribus. Talis igitur numerus duplicatus efficiet prædictam summam. De veritate huius contextus uide Notam nostræ Academiæ in hoc loco.

Cum prædicto non modicam congruentiam mihi uidetur habere illud Euclidis apud idem Maximi Planudis Florilegium: quod adhuc a nemine in impressis Anthologijs rectè expositum inueni.

Nauis. Ex Symphosio.

Longa feror velox, formosæ filia syluæ,
Innumerâ pariter comitum stipante caterua;
Curro vias multas, vestigia nulla relinquens.

Straparolij.

Vn nero alto destrier con ali bianche
Nell'andar vola, e mai non tocca terra:
Tien dietro il freno, e spesso par, che stanche
L'huomo, e nel petto valor grande serra.
Battendo or l'ali, & or le penne franche,
Corre così da pace, qual da guerra.
Ha due grand'occhi, e nulla però vede,
Ma spesso scorge l'huom, dou'ei non crede.

Sertæ. Ex Symphosio.

Dentibus innumeris toto sum corpore plena:
Frondicomam sobolem morsu depascor acuto:
Mando tamen frustra, quæ respuo præmia dentis.

Cæsaris a Cruce.

Ho denti, e non ho bocca, e done attacco
Il dente, tiro via, quanto ne prendo;
Ne giammai dalla cosa io mi distacco,
Fin che recisa, e tronca non la rendo:
Ma, se bene assai mangio, nulla insacco,
Che da busto, o da capo non dipendo;
Pur mangi quel, ch'io voglio, o poco, o assai,
Lo getto fuori, e nol trangugio mai.

Cum inter claros linguæ Latinæ amatores, & qui bene proximis temporibus de Repub. literariâ meriti sunt, iure optimo numerentur Iulius Scaliger, & Iacobus Pontanus, atque vtrique in hoc Poëmati genere laborauerint, non possum non conferre etiam cum ipsorum, corollarij vice, aliquot ex nostris.

Lin-

Lingua Etrusca, ut notum est, rythmi gratiâ pulcherrimè truncat dictiones. Ex quo idem nobis ualet, *Vero*, & *Ver*; unde lusus in alterâ gryphi parte. *Vero.*

Duo terzi di tre quarti d'uno intero.
Son la metà del tutto, e'l tutto è vero.

Sed iam, dimissis alijs, quæ innumera afferri possent, deueniamus ad prouerbialia ænigmata: quod est nostrum principale propositum.

Cum pinguis caro citò satietatem, ac ferè nauseam afferat; inde importuno homini, uel qui alio suo uitio nobis molestus sit, dicere solemus; *Tu se carne grassa*; Dicimus etiam; *Tu hai di quel, che adoperano i legnaiuoli*; intelligentes, ut appellatur, *dello stucco*; in qua dictione consistit tota uis prouerbij. *E' carne grassa.*

Si qua uxor uiro suo fidem frangat, cum alióque commisceatur, hæc ipsi dicitur *Far le corna.* Cum uerò cornua obtorta sint, ænigmaticè idem efferunt; *Far le fusa torte.* *Far le fusa torte.*

Qui in diem ex œnopolis sibi uinum comparant, dicuntur; *Imbottare all'arpione*; quippe qui non ligneas lagenas uino imbuant, sed uitreos œnophoros adhibeant, quos clauo, uel cardini appensos tenere solent. *Imbottare all'arpione.*

Qui agrorum diuites sunt, a plebeculâ dicuntur; *Auere il cul terroso*: *Auer della terra al Sole.* *Ha il cul terroso.*

Significare uolentes, cuipiam alicuius rei nihil dubij superesse, sed iam omnia rectè probata fuisse, dicere consueuimus: *E' si può 'mbottare a sua posta.* Quando enim iam defæcatum est uinum, quod nos appellamus *Chiaro*, arbitratu domini infundi potest: & ille, cui nihil est dubij, dicitur; *Esser chiaro.* *Potersi imbottare.*

Hoc facile est intellectu, atque explicatu; quod dicitur de eo, qui rectè ualeat, quique firmâ sit ualetudine: *E' pigliarebbe'l pollo senza pestare:* ægrotis enim paratur, ut dicunt, *il pollo pesto.* Vnde contra, siquis grauiter ægrotat, dicimus. *Egli è al pollo pesto.* *Pigliare il pollo, &c.*

Grammatici Latini asserunt, nuces dictas esse a nocendo, eo quod linguæ noceant. Quò mihi quodammodo spectare videtur nostrum adagium in hominem, qui conuitia ingerat, & huic, & illi obtrectet. *Egli ha mangiato noci.* i. *Egli ha cattiua lingua.* Nec me latent Sannazarij uersus. *Ha mangiato noci.*

Pastor la noce, che con l'ombre frigide.
Nuoce alle biade, &c. in Arcadiâ.

Ignarus homo præter alias rationes μεταφρικῶς appellatur a nobis Bue. Vnde qui rem uerbis obscurare aliquantum uolunt, huiusmodi nominant, *Animal da carro:* uehicula enim a bobus uulgò trahuntur. *Animal da carro.*

De eo, qui triremi addictus fuit, inquit multitudo. *Egli è ito a bastonare i pesci:* quorum uerborum sententiam per se satis patere existimo. *Andare a bastonare i pesci.*

In efferendis ad sepulchrum cadaueribus, post funalia, quæ portantur a uespillonibus, communi Christicolarum more Crux gestatur. Hinc, sicui e.g. ob agnatorum mortem grandes contigerint hæreditates, dici solet. *Santa Croce l'ha aiutato.* *S. Croce l'ha aiutato.*

Qui, astutè conantes ex aliquo quidpiam intelligere, nunc de hoc, nunc de illo non longè a suo proposito percontantur, dicuntur a nobis *Scalzare.* *Cauare i calcetti.*

Inter calceorum genera numerantur udones, calcei ſcilicet linei, qui uulgò appellantur *Calcetti*: Ex quo *Cauare i calcetti* ualet, quod ſupra dicebam, *Scalzare*. Siquis autem, audiens hunc interrogantem, rem ſentiat, illud iactare ſolet; *Tiralo sù, ch'egli affoga*.

Cui mutuata eſt a nobis pecunia, noſter eſt debitor, nósque ipſius creditores appellamur, eoquòd ei talem pecuniam credidimus. Cum uerò credere etiam ſit, alicui fidem habere; ex hac ambiguâ loquendi ratione ortum eſt tale adagium. De eo enim, cui parùm credimus, dicitur. *E' m'haa dar pochi quattrini*. Et ſiquis apud nos fidem perdiderit, dicere ſolemus. *E' m'ha dato il mio reſto*.

Ha a darmi pochi quattrini.

Ha il mal delle due milze.

De muliere, quam ſignificare volumus grauidam eſſe, αἰτιγυαικάδες dicere ſolemus; *Ell' ha il mal delle due milze*.

Scorre i bracchi.

Significare uolentes, aliquem ſeu morbo, ſeu ſenectute, aliáue cauſsâ delirare, nec eſſe apud ſe, dicimus; *Egli ha ſciolto i bracchi*. *Bracchi* ſunt canes illi uenatici, qui ferarum veſtigia naribus ſectantes, uel ipſas, uel ipſarum luſtra venatoribus indicant: quos copulâ diu detentos, ſi aliquando dimittas, huc, atque illuc curſitantes diutiùs uagantur: unde originem traxit noſtrum prouerbium.

Zucchero di tre cotte.

Quod uulgò dicitur *Zucchero di tre cotte*, ualet, *Finiſſimo*: quę uox ambigua eſt; nam, ſi e.g. panno addatur, ſignificat, eum eſſe ex ſubtili ſtamine conflatum; ſi uerò homo appelletur *Fine*, denotat, hunc callidum, uafrúmque eſſe. Vnde uulgò dicitur de callidiſſimo, uaferrimóque; *Zucchero di tre cotte*. Nec me fugit, quę a Petro Bungo ſcripta ſint: agens enim de numero ſeptenario, ita inquit. Vbi ſepties igne id [ſaccharum] examinaueris, percoxeríſque, nihil quidquam proficit ulteriùs; ſed lapideſcit omnino, ne ulteriùs eliquari poſſit. Adagium inde uſurpatum de re, quę ſummam adepta ſit perfectionem: Septimæ decoctionis ſaccharum, ubi ſagaciſſimum quempiam, atque uaferrimum hominem deſignamus. Hęc Bungus de Numerorum Myſterijs.

Ex puteo hauritur aqua, ſitulâ per funem demiſsâ, ut notum eſt. Funè etiã facinoroſis hominibus a carnifice intercluditur anima. Hinc, ſi quem populus obſcurè ſignificare uult, infami hoc ſupplicio affectum eſſe, inquit. *E' ſtato ammazzato con una lancia da pozzo*. Vbi *ro Lancia da pozzo* pro ipſo funè intelligi debet.

Ammazzar con una lancia &c.

Le diſgrazie ſon come, &c.

Cum menſæ cauponum ſemper in promptu, paratæque ſint: Hinc plebecula, ſignificare volens, infortunia ſemper eſſe parata, dicere ſolet; *Le diſgrazie ſon come le tauole de gli oſti: ſempre apparecchiate.*

Viuer per fede.

Quidam ſignificare volentes, ſe ab aliis aliquam rem intellexiſſe, non autem ipſi affuiſſe, inquiunt; *Io uiuo per fede*. i. *Io credo*. quaſi dicant; Non interfui, ſed ex aliis illud accepi.

Sonar di randello.

Spauar le coſture valet, plagas infligere, percutere. Idem etiam valet, *Sonar di Randello*. Vbi verſetur ambiguitas, manifeſtum eſt.

E' di razza di can botolo.

Egli è di razza di can botolo. Iactatur in eum, qui ſit non admodum procerâ ſtaturâ, ſed maximè iracundus. Integrum enim ſic profertur. *Egli è di razza di can botolo: piccolo, e ſtizzoſo*. Huc alluſiſſe videtur Dantes, cum cecinit Purg. Cant. 14.

Botoli trouona poi, venendo giuſo,
Ringhioſi piu, che non chiede lor poſſa, &c.

Popul.

Popellus Significare volens, non uerbis, sed pecuniâ opus esse ad rem peragendam, obscurè dicere solet. *Ci bisognan di que', che fanno cantare i ciechi.* Solent enim, qui oculis capti sunt, cantum, vel pias preces pro alijs fundendo, hoc pacto sibi uictum quæritare. *Bisogna di quei, &c.*

Macchie apud nos, inter alia, duo significant, sordeis scilicet, quæ ex oleo, aliove pingui liquore pannis contrahuntur; & saltus, seu dumeta, ubi retibus, vel visco volucribus tenduntur insidiæ. Ex hac dubiâ significantiâ originem traxit adagium; *Può uccellare sul suo*: quo κατ' ἐμφασιν utimur, aliquem sordido, luridoque ornatu obsitum videntes. *Può uccellar sul suo.*

Cùm die Veneris, ac Saturni carnes Christianis hominibus interdictæ sint, uulgò comeduntur olera, legumina, pisces, & huiusmodi, quibus nihil inest pinguedinis. Hinc Emendicata suffragia, ut inquiunt Iurecons. & rationes parùm, aut nihil pollenteis, appellare solemus, *Ragioni del Venerdì, i. magre*, ut simpliciter dicuntur. *Ragioni del Venerdì.*

Significare volentes, aliquem e.g. non diluculo, nec primâ luce è cubili surrexisse; sed sole iandiu exorto, obscuriùs dicere solemus; *All alba de' Visconti*. Cuius si quis caussam quærat, inquiunt; *Il Sole è a mezza gamba.* A uulgi fæce dicitur in eâdem sententiâ; *All' Alba delle mosche; All' Alba de' Tafani.* *All' Alba de' Viscõti.*

In indocilem, & cui, ut fertur, Musarum portæ omnino clausæ sint, ab aliquibus iactatur. *E' nacque la notte di S. Vitale.* *Nacque la notte di S. Vitale.*

Qui detinentur in carcere ob ferreos cancellos, qui carceris fenestræ appositi sunt, dicuntur, *Auere gli occhi di ferro*: qui cancelli cum quadratâ figurâ inter se distincti sunt, alterius, idem penitus significantis occasionem dederunt; *Vedere il Sole a scacchi.* Idem valent; *Le capre non lo possan cozzare; Egli è in domo Petri; E' s'è messo il giubbone di Beltramo.* *Ha gli occhi di ferro.*

Non puoi dir, come il nibbio. i. Exempli gratiâ; Istud, quod manu geris, tuum non est: miluius enim, quando clamitat, uidetur exprimere hæc uerba *Miomio.* i. meum meum; Vnde non desunt, qui censeant, inde a Latinis appellatum fuisse Miluium. Nõ potes igitur dicere; Hoc meum est. *Non può dir come il nibbio.*

Erubescimus, inquit Philosophus, loqui absque ratione. Quæ sententia uulgatissima quoque est apud Iurecons. Erubescimus loqui absq; lege, & usurpauit Lucianus in Epistol. ad Sabinum. In summâ; stultitiæ, atq; ignorantiæ argumentum est non mediocre, si quis, de quo agat, rationem reddere nequeat. Sed nonnulli, si τὸ Quare interrogentur, respondere solent; *Perche sì.* Quam respondendi rationem vulgò appellare solemus. *La ragion delle donne.* *La ragion delle dõne.*

Quos credimus siti, ac fame laborare, affirmantibus, modestiæ, vel alîus caussæ gratiâ, se tantùm sitire, subdere solemus: *La sete del lupo.* i. Lupi sitis; nempe edendi, ac bibendi cupiditas. *La sete del lupo.*

Quorum salus a medicis desperata est eos dicimus; *Essere spediti per lettere di Cambio.* i. De illis actum esse. Quod Græci παροιμιακῶς τῷ σελίνῳ δεῖς. i. Apio opus habere. Plutar. in Sympos. Sed nostra dicendi formula perplexa est: trapezitæ enim conficiunt tesseras collybisticas, quas appellamus *lettere di cambio*. Qui verò animam agunt, dicuntur; *Andarsene per le poste; Essere a' Confitemini*; Inter enim preces, quæ, ut dicitur, Pro animæ Commendatione funduntur, sunt plures Psalmi, qui inchoãtur a uerbo Confitemini. Et qui festinanter iter aliquod conficere debent, *Spediti per lettere, etc.*

E' a'Confitemini.

bent, veredo (a Græcis appellatur ἵππος παχύδρομος, a nobis *Posta*) uti ſolent. Brunettus dixit; *Eſſer preſſo a Confitemini.*

Teſtimoni di S. Gennaio.

Si quis affirmet, a ſe aliquid viſum, vel auditum, quod nos certò ſciamus, verum non eſſe, dicere ſolemus. *Teſtimoni di San Gennaio.* Narratur enim, hos, ut inquiunt Iureconſulti, de viſu deponere uoluiſſe, cum vtriſque oculis eſſent capti.

La lancia d' Achille.

La lancia d' Achille. i. Achillis lancea. Ex hiſtoriâ notiſſimâ Telephi, qui, cum obſtaret, ne Græci, ad Troiam proficiſcentes, per Myſiam iter facerent, ab Achille ſauciatus fuit. Cui plagæ non inuento ſatis idoneo remedio, oraculum conſultum reſpondit, eamdem haſtam, qua fuerat uulneratus, eum eſſe ſanaturam. Quod factum fuit. Dicitur ergo, quoties, unde iactura orta eſt, inde præſtatur remedium. Reſponſum oraculi tale fuit. ὁ πρώσας, καὶ ἰάσεται. i. Qui ſauciauit, & medebitur. Vide P. Vict. var. lect. lib. 5. c. 12. & lib. 24. c. 14. Dantes optimè. Infer. cant. 31. in princ.

Così od'io, che ſoleua la lancia
D' Achille, e del ſuo padre eſſer cagione
Prima di triſta, e poi di buona mancia.

Egli ha legato l'aſino, &c.

Si quis grauiori ſomno oppreſſus, maximè ſtertat, vel aliud ſignum profundi ſoporis præbeat, dicere ſolemus; *Egli ha legato l'Aſino a buona caniglia.* Vtitur Boccac. Fabu. 40.

Dottor della neceſſità.

Iuxta illud uulgatum recentium Iurecoſl. dogma; Neceſſitas legem non habet; quando ſignificare volumus, aliquem non eſſe iuris, legúmve admodum peritum, appellare ſolemus; *Dottor della Neceſſità: ſenza legge.*

E' un arca di Noè.

In arcâ illâ, quæ Dei iuſſu a Noa conſtructa fuit, omnis generis animantia concluſa fuiſſe, palàm eſt omnibus. Hinc nos ſignificantes, aliquem omnis generis virtutum præditum eſſe, dicimus: *Egli è un arca di Noè.* θησαυρὸν μυσεῖον. i. Vtium Muſæum. βιβλιοθήκην ἔμψυχος. i. Bibliotheca animata. Virtutum theſaurus. Parœmiogra. Dicimus etiam παροιμιεχῶς, *Egli ha piu virtu della Brettonica.* De quo libro ſecundo. Et apertiùs; *Egli è un'arca di ſcienza.*

Merita piu 'l limbo, che l'inferno.

Semplice dicitur a nobis, & qui nullius uitij vel per ætatem, uel per integritatem ſibi conſcius eſt; & qui naturâ credulus, nihílque vafer haud difficulter a quouis decipi poſſet. Ex cuius verbi ambiguitate originem traxit hoc adagium. *E' merita più il limbo, che l'inferno.* In hominem qui facilè dolis opprimi poſſit. Sententiâ verborũ ſatis per ſe patêre exiſtimo.

Ha ſpento una lanterna.

Qui obſcurè ſignificare vult, aliquem eſſe oculo captum inquit; *Egli ha ſpento una lanterna.* Quando verò diſtillatio, vel alius affectus oculum alicuius angit, adeò, ut telâ ſericeâ, quemadmodum fieri ſolet, eum cooperтum teneat, tunc dici ſolet; *Egli ſta a ſportello.*

Stare a ſportello.

Ha le campane groſſe.

De eo, qui tardè, ac difficulter exaudit; *Egli ha le campane groſſe.* Et Brunetus; *Egli ha male campane.*

Dare, donde ſi da al boſſolo, &c.

Dare, ut in primo libro notatum eſt, quandoque valet nobis verberare, ſiue percutere. Quid ſit pyxis, ubi ſpecies conduntur; & quomodo ex ipsâ ſpecies emittantur, ut notiſſimum prætermitto. Quoties igitur inter duos ex popello orta fuerit rixa, quorum unus alteri nihil cedat; ſi iſte plagas interminetur, hic, eius verba, minásque nihilipendens, dicere ſolet. *Voglio, che tu mi dia, donde ſi da al boſſolo da ſpezie.* Quando enim ex eâ

Qui ſignificare vult, ſe vtique egere, ſed non laborare extremâ inopiâ, dicere ſolet; *Io non ſono alla catena*: quod prouerbium proculdubio deſumptum fuit à mancipijs, ſeu captiuis, qui, per Capitis diminutionem, ut inquiunt Iureconſulti, fortunis omnibus, ac libertate priuati catenâ etiam conſtricti ſunt. *E' alla catena.*

Vulgò dictitant, Orlandi matrem appellatam fuiſſe Bertam, ſiue Baiam: vnde origo talis adagij; *Dar la madre d'Orlando*. i. *Dar la Baia*, ſeu *la Berta*. quæ locutio valet, irridere, atque illudere. Dicitur etiam; *Soiare*. *Dar la ſoia*; Quæ Venetorum propria. *Dar la madre d'Orlando.*

Iunculi, ſcriblitæ, & huiuſmodi puerilia cruſtula fieri ſolent ex farinâ puriſſimâ. Hinc de eo, quem non omnino purum, culpáque uacuum cenſemus, dicitur; *E' non è farina da cialde*. Eodem ſpectat & illud, ſed non huius generis. *E' non è netta farina*. *Non è farina da cialde.*

Si e.g. canis in ędibus immodicè latret, hera indignata, interminans, niſi quieſcat, ſe eum foras per feneſtras deiecturum, dicere ſolet; *E' vuol far la uia delle rondini*: hirúdines. n. per feneſtras ingrediúntur, & egrediuntur. *Far la uia delle rondini.*

Quod inquit Catullus in Coloniam; Nec ſapit pueri inſtar; de quo nos alibi, dicitur *αἰνιγματωδῶς*, *Se gli può dar nel capo*. Quaſi velimus; caput quidem habet, quod percutere queas, ſed cerebro caret: quod a nobis pro ingenio, ſapientiáque accipitur. Dicitur etiam in eodem propoſito, *Egli ha poco di quello, che'l bue ha troppo*. i. *del ceruello*. *Se gli può dar nel capo.*

Qui, quamcunque mulierem uideat, ſtatim deperit, uulgò dicitur, *Attaccare il Maio a ogni vſcio*. Solent enim amaſij prędpuè in pagis, oppidíſque Kalen. Maij virideis arbuſculas, floribus ornatas (quas ab eo menſe, ut cenſeo *Mai* appellant) ruſticas canendo cantilenas, amaſiarum domibus in amoris ſignum affigere. Eiuſdem notę (quo vtitur Seneca lib. 3. Epiſt. 24.) uel, Eiuſdem farinę (quod eſt apud Perſium in Quintâ Satyrâ) uidentur dicti a Latinis homines, qui iiſdem ſunt prędditi moribus: Hi uerò a nobis; *Della medeſima razza*; *Della medeſima pannina*. Et vulgus *αἰνιγματῶδες*: *Sono come i popon da Chioggia: tutti d'una buccia, e d'un ſapore*. Pro quo Aloyſius Pulcius;

Tutti ſiamo d'un pelo, e d'una buccia. *Come i popon da Chioggia.*

Tamburino eſt ille, quem Gręci *τυμπανοπετίζειν* appellãt, qui ſcilicet in bellis tympanum pulſat. Hic, quaſi incertarum ſit partium, ſemper victoribus fauere dicitur. Vnde nos, qui modò huic modò illi ex ſuâ libidine adhæret, dicimus; *Far come il Tamburino*; Duabus ſedere ſellis; ſcomma Laberij in Ciceronem apud Macrob. in Saturna. Vrſus beſtia notiſſima, eſt animal adeò deforme, ut, ſiue ambulet, ſiue ſtet, nihil uenuſtatis præſeferat. De homine igitur, qui, quicquid agat ſiue ſeriò, ſiue iocò, riſum excitet, dicere ſolemus. *E' piace, come l'orſo: per la ſua goffezza.*

Piacer come l'orſo

Orcinol de' poueri.

In obłœna effutientem iactat uulgus; *Egli è come l'orcinol de' poueri.* i. *sboccato:* Pauperes enim uiliſſimis utuntur ſupellectilibus, iisq; obſoletis, ut eſt urceolus, qui non ſit integer, ſed in ore mancus, quod ualet *Sboccato.* Sed iuxta ſenſum ſignificat ἄσομον, de qua uoce uide ſupra pag. 48.

In eum, qui, multa ꝓponens, nihil peragit, dici ſolet. *E' fa, come il Sol di Marzo: muone, e non riſolue.* Eo enim tempore incipit tellus emittere ſuos fructus; qui tamen ad maturitatem non illo, ſed alijs temporibus perducuntur.

Hoc autem plauſtro, ſiue uehiculo præcipuè rudera, atque huiuſmodi quiſquilias ad urbis pomœria, uel aliò ex Aedilium iuſſu aſportantur. Dum igitur onera plauſtro imponuntur, ut equus ille ureis reficiat, ſolent agaſones furfurē, uel quid ſimile ſacco habere, interimq; caput equi in ſaccum immittere, ut comedat. Vnde ortum adagium: *Mangiar come il caual della Carretta: col capo nel ſacco.* Et dicitur de illis, qui nullam

Mangia come'l caual della carretta.

domus

domus curam gerunt, ut nobiles filij familiâs; cum a patribus omnia curentur, ac suppeditentur. Eodem spectat etiam illud. *Mangiar a suon di campanuzzo.* De cœnobitis, & alijs, qui in sacris familijs aluntur.

Campanili dicuntur a nobis turres illæ, sacris ædibus iunctæ, ubi appensa sunt ea instrumenta ærea, quæ a monte Campano, ubi primùm fusa dicuntur, Campanæ nuncupatæ fuerunt. Hæ cum uri non admodum frequentes reperiantur, occasionem dederunt, ut de raris, & quæ non passim inuenire liceat, dicatur. *Son come i Campanili di contado.* *Come i campanili di contado.*

Inter cætera esculenta, quæ ex carne suillâ conficiuntur, fit farcimen illud, quæ lucanica a Latinis, & a nobis hodie *Salsiccia*, ab antiquioribus, si Brunetti Epitaphio fidimus, *Salciccia* appellabatur. Ad hanc conficiendam, ut notum est, a farcinatoribus multa aromata adhiberi solent: adhibetur etiam fœniculum. Sed & sine hoc non esset fortasse minoris saporis. Vnde originem traxit nostrum prouerbium. *Io ci sono, come il finocchio nella salsiccia: per ripieno.* Quod vsurpari solet ab aliquo, qui v. g. in magnâ alicui causâ delegatorum iudicum multitudine se nihil posse; sed, vt numerum conficiat, adhibitum esse, vult significare. Idem valet illud ab aleatoribus desumptum: *Io ci son per le none coppe.* Et quod ἁπλῶς: *Io ci son per vn più.* *Come il finocchio nella salsiccia.*

Splendidus, pecuniaq; non auarus Latinorum more appellatur a nobis, *Largo.* Vnde εἰρωνικῶς In sordidum vulgò iactatur. *Egli è largo in cintola. E largo, com' vna pina verde.* Quibus non longiùs absunt. *Il Largo de' Mancini. Il Largaccio da Lucca: dana bere all'oche, quand'e' pioueua.* De alieno liberalis. Seneca. Et quod notat Titius ex Pausaniâ Loco. Contro. lib. 10. cap. 4. θυμιάμασιν ἀλλοεθνέσιν τὸ θεῖον σέβεται. i. Numen alienis suffitibus veneratur. *Il Largaccio da Lucca.*

Cum vulgus significare vult, ab illis, quæ ineuitabilis Dei manus in homines immittit, eos sibi cauere non posse, dicere solet. *Cio che casca dal ciel non c'è riparo.* In quam sententiam Aeschylus in Persis. ἀνάγκη πημονὰς βροτοῖς φέρειν θεῶν διδόντων. i. Necesse est hominibus damna perferre, quæ a Dijs inferuntur. Idem Aristoteles. ἀνυπόστατόν ἐστι τὸ τῆς πεπρωμένης κακοῦ. i. Ineuitabile est malum fatale. Dei decreta rectè tolerare conuenit. Sopho. in Oedi. Colo.

θεῷ μάχεσθαι δεινὸν ἐστιν, κοὐ τύχῃ. i.

Deo, & fortunæ repugnare graue est. Menan. Huc pertinent sniæ:

Che contra'l ciel non val difesa umana. Petrar.

Quello, che manda il ciel, forza è si tolga. Areost.

Idem etiam αἰνιγματωδῶς effertur. *Come disse la tinca a' tincolini: a quel che vien di sopra, non c'è riparo.* Narratur enim ex apologo, tincam (Platina credit, olim menam appellatam fuisse) docentem suam prolem, quo modo ab omni rete sibi posset cauere, simul cum filijs a fundâ comprehensam fuisse. Vnde conquerenti filio, quòd non docuisset etiam ab hac sibi prospicere, eam, ferunt, tali pacto respondisse. *Come disse la tinca a' tincolini. Apologus.*

Star sine terra terra. Nazianzenus in Monodia Basilij; περὶ τῆς ὄρνις πρόπο-

Far come la porcellana. *Far, come la porcellana: ſtar ſene terra terra.* Eodem pertinet Senarius.

Πεζῇ βαδίζω, νῆιν γὰρ οὐκ ἐπίσαμαι. i.
Pedibus ingredior, natare enim non didici. Paræmiograph.

Brunettus in Epitaphio dixit; *Star terra terra.*

Viue come lo ſparbiere. De eo, qui nihil habet in cenſu, ſed quotidianis operis ſibi victum quæritat, dicere conſueuimus. *E' viue, come lo ſparbiere: dì per dì.* καθημερόβιος. i. In diem uiuit. uel, καθημέριος βίος. Græci paſſim.

Come i poli di mercato. In duos aliquos, quorum alterius nequitiam alterius probitas compenſare uideatur, dici ſolet. *E' ſon, come i polli di mercato: vn buono, e vn cattiuo.* ὁ μὲν ἑκάτερος ἀμφότερος, ὁδὲ ἀμφότερος οὐδέτερος. i. Vterque ambo, ambo neuter. Philippi dicterium in duos fratres; de quo meminit Plutarchus in Moralibus.

Far, come Giucca. Quando vnius exemplo multi idem temerè faciunt, dicere ſolent noſtræ mulieres; *E' fanno come Giucca: quel, ch'e' veggon fare.* ἑνὸς χαίοντος μετέχουσιν ἕτεροι. i. Oſcitante vno, deinde oſcitat & alter. Paræmiogr.

Far come il can, &c. De eminus malum interminante, cum ipſe ſit in tuto. *E' fa, come il can del pagliaio.* Græci in hanc ſententiam; γλώττῃ πολεμίζει. i. Linguâ bellat. Ex Paræmiographo.

Vſcire propriè eſt exire. Dicitur etiam παροιμιακῶς. *Egli vſcì*; quando ſignificare volumus, aliquem nos quidpiam non celâſſe, ſed interrogatũ, ſyncerè, & ex animo confeſſum fuiſſe. Cui contrarium; *E' non vſcì à nulla.*

Far formica di ſorbo. Hoc iacto fundamento, facilè intelligitur Adagium; *Far formica di ſorbo: non vſcir per buſſare.* i. Quamquam iterum, atque iterum de aliquâ re quiſpiam interrogetur, ne gry quidem, vt fertur, ad propoſitũ reſpõdere.

Far, come l'aſino. De eo, qui e. g. multas cogens pecunias, nihil impendit, immo ſordidiſſimam uitam degit. Vel; De eo, qui opiparo inſtructo conuiuio, nihil comedit, dicere ſolemus. *E' fa, come l'aſino: porta il uino, e beie l'acqua.* ζῇ βίον ἡμιόνων, αἱ χρυσῦ φόρτον ἔχουσαι πολλὸν ὑπερνώτου, χόρτον ἔδουσι μόνον. i. Mularum uitâ degit, quæ, magnum auri pondus ſuper dorſo geſtantes, ſolum comedunt fœnum. Ex Epigrammate incerti auctoris. Antholo. li. 2. Tit. De Præparcis. Vide ſup. p. 103.

Come l'arco Soriano. In eum, qui, nullius ratione habitâ, tam amicis, quàm inimicis imponit, iactari ſolet. *Come l'arco Soriano.* vel: *Come la ſtadera de' beccai. Come la baleſtra Furlana: tanto a gli amici, quanto a' nemici.* Quod Simonides ita, de muliere loquens: ἐχθροῖσιν ἴσα, καὶ φίλοισι γίνεται. In amicos, atque in hoſteis ſimilis eſt.

Non lo 'ntẽderebbe Perſicone. De homine, qui perplexè, atque obſcurè loquatur, inquit uulgus; *Non lo 'ntenderebbe Perticone: intendeua le capre, quando belauano.* οὐδ' ἂν ἀπόλλων μάθοι. i. Ne Apollo quidem intelligat. Antiphanes apud Athenæ. lib. 3.

Veſtirſi di pelle d'aſino. Inhumani, & qui in neminem beneficium conferunt, appellantur a nobis μεταφορικῶς *Aſini*. Hinc, ſi quis denotare uult, non eſſe in quempiam beneficia conferenda, quòd ſcilicet omnis gratia ſtatim pereat, uel quauis aliâ de cauſsâ, dicere ſolet. *Biſogna veſtirſi di pelle d'Aſino.*

Valigiato. Irati dicuntur παροιμιακῶς In fermento iacere. Quod a nobis αἰνιγματῶδες *Eſſere in valigia*; de quo ſupra. Qui verò hoc vitio laborant, nempe iracundi, & quibus bilis ſemper in nare ſedet, ut dixit Theocritus, appellantur a nobis *Valigiai*. Quod verbum eſt ambiguum: nam propriè illi, qui

bulgas,

bulgas, atque hippoperas faciunt, nuncupantur *Valigiai*.

Si quis e. g. mercaturam exercens, pro lucro damnum accepit; vel patrimonium maiori ex parte prodegit, dicere consueuimus. *Egli ha fatto di trentatre vndici*. Quod ualet; As ad trientem redactus est. *Far di trentatrè vndici.*

Ferentes munera, *αἰτηματικῶς* dicuntur, *Picchiar l'vscio col piè*. i. Pede ostiũ pulsare. Quòd scilicet manus donis intricatas habeant. *Picchiar l'vscio col piè.*

Pulcherrimum est illud, sed non facile explicatu, ut mihi videtur. *La vigna del Madda: assai pampani, e poc'vua.* Dicitur ergo, si quis indicare uult, aliquem e.g. videri quidem literatum ex multis sententiarum floscul is, quas temerè perceptas, passim proferat, sed re ipsâ non esse talem, cum prorsus careat veris intelligendi fundamentis, utputa cum perfectam linguarum cognitionem non hauserit, nec primoribus quidem labijs Philosophiæ fonteis gustauerit. *La vigna del Madda*

De re numeris omnibus perfectâ, ut alibi ex Aristotele notatum est, vulgò dicitur. *Non se gli può ne leuar, ne porre*. i. Nec addi, nec adimi potest. Huic simile est dictum illud frequens in ore plebis. *Le nozze del Gonnella: non auanzò, ne mancò nulla.* Quoties in aliquâ re peragendâ nec deest, nec supersit quidpiam. *Le nozze del Gonnella.*

Idem uulgus e.g. in malum Reip. ministrum, qui in gerendâ prouinciâ per fas, nefasque locupletari studeat, suboscurè inuehi solet. *E' fa a Trionfini di Madama: a rubare, e assassinare.* *Fare a'triõfini di Madama.*

Le bestemmie fanno come le pricissioni: ritornano, donde si partirno. *Le bestemmie, &c.*

In proprium redeunt impia dicta caput,

Huc pertinet illud Matthæi Villanij. *Chi contra a Dio gitta pietra, in capo gli ritorna.*

Simul iungere digitos manus, ut a Latinis fiebat fanna illa, quæ ciconia uocabatur, dicitur Florentiæ, *Far pepe*; quod quemadmodum præ frigore hybemo tempore non facilè, ita Iulio mense absque ullâ fit difficultate. Hinc illud *αἰνιγματῶδες*. *E' non farebbe pepe di Luglio*; de homine supra modum frigido, & ad res agendas inepto. Ialemo frigidior, significat nobis; *Egli è più freddo d'vna Tramontana*; vt alibi diximus. Cuius sententia eadem est, atque huius. Vtitur etiam Brunettus in Epitaphio. *Non farebbe peppe di Luglio.*

La fauola del tordo: guardagli alle mani. Tempus vsurpandi huius prouerbij ex ipso turdi Apologo satis percipitur. Capti fuerant complures turdi, quos auceps, ut fit, pollice, & indice caput ipsorum stringens, sigillatim interimebat. Cum uerò præ algore aucupi decidere nt lacrymæ; O, socij, inquit vnus ex ijs, homo ob nostri misericordiam illacrymat. Respondit alter. Aspice ipsius manus. Vtimur ergo, significantes, aliud simulari, & aliud fieri; Græci in eâdem, uel simillimâ sententiâ; *κροκοδείλου δάκρυα*. i. Crocodyli lacrymæ. Huic simile est apophthegma illud. *Come disse la gol pe: le parole eran buone ma i cenni dolorosi.* De quo suo loco. *La fauola del tordo.*

Qui, ut alios decipiant, se alterum alteri inimicos esse simulant, dicuntur a nobis. *Far come i ladri: il giorno nimici, e la notte insieme.* i. Familiariter inimicitias exercere. Ex Cicero. *Far come i ladri.*

Si quis in rebus suis nullam seruet mediocritatem, sed ab uno extremo, ut dici solet, ad alterum transeat; v.g. ex auarissimo fiat maximè prodigus, & contra, dicere solemus; *E' fa come il grillo: o' salta, o' gli sta fermo.* Ad idem tendit *Far, come il grillo.*

L'oſteſſa della Faggeta,
O'lla brontola, o'lla ſta cheta.

Manico propriè nobis eſt manubrium, ſiue anſa. Accipitur etiam quandoque pro caudâ ſalaci, ſeu uirili membro, ut penis a Latinis, quæ propriè valet caudam. Hinc dicti ambiguitas; *Piu diſoneſto d'un caneſtro: moſtra ſempre il manico.*

Piu diſoneſto d'un caneſtro.

Indicare uolens, ſe u.g. ex aliquo ludo nec meliorem, nec deteriorem conditionem ſuam feciſſe; ex co.s. diſcedere, nec damno, nec lucro accepto, *αἰνιγματικῶς* inquit; *La Ronſa del Vallera: ne fa, ne fa.* i. Nec lucri, nec damni quidpiam. Bocca. ſimpliciter dixit. *Noi ſiam pari pari.*

la Rõſa del Vallera.

Hiſtoria Alberici Manfredij, qui cooptatus in numero equitum, ut uocant, Gaudentium Frater Albericus appellatus fuit, ſatis nota eſt: qui ſcilicet, pace ſimulatâ, conuiuio aduerſarios excipiens, in fine pro ultimis epulis ex improuiſo oppreſſos interemit. Ipſe per ſe patratum facinus Dantj narrat in Inf. cant. 33.

— I' ſon frate Alberigo:
Io ſon quel delle frutte del mal'orto,
Che qui riprendo dattero per figo.

Nos, quando aliquis malè plagis acceptus fuit, uulgò dicere ſolemus. *Le frutte di frate Alberigo: amare.* Aloyſius etiam Pulcius prouerbium vſurpat.

le Frutte di Frat' Alberigo.

Le frutte amare di frate Alberigo.

Pro hoc Latinè diceret aliquis; In Tragicum choragium exierunt epulæ. Non prætereo, apud nos in adagio quoque eſſe; *Riceuer dattero per fico;* ex co uerſu;

Che qui riprendo dattero per figo:

Significat autem, Pœnas ſceleri æquales luere, uel potius ampliores.

Quod prouerbialiter inquiunt; Ver ex anno tollis; quando aliquis e.g. hiſtoriam narrans, magis notandam, pulcriorémque partem omittit, dicitur a nobis *αἰνιγματικῶς*. *Tu guaſti la coda al fagiano: laſci il piu bello.*

Guaſtar la coda al fagiano.

In eum, quem cenſemus grandiori eſſe ætate, quàm dicat, u.g. non triginta, ſed quadraginta annos natum eſſe, ridendo iactare ſolemus. *Bambin da Rauenna: nacqui e con la barba.*

Bambin da Rauenna.

Famem ciborum optimum eſſe condimentum, atque omnia edulcare, alibi a nobis dictum fuit. Exempla Socratis, & aliorum, qui nunquam, niſi maximè eſurientes comedebant, notiſſima ſunt ex Cicerone, & alijs; unde non recenſeo. Pro eo igitur, quod *παροιμιῶδες* ab antiquis dicebatur; Fames optimum condimentum, Fames omnia edulcat; dicitur a noſtris. *La ſalſa di San Bernardo: la fame.* Hic enim Sanctus ieiunio ferè quotidiano indulgens, occaſionem nobis dedit talis prouerbij.

la Salſa di S. Bernardo.

A ſermone propoſito aberrans, uel potius abſurda, & inconcinna proferens, uulgò dicitur, *Non dare in nulla.* Pro qua loquendi formulâ plebecula *παροιμιῶδες*, *Dare in budella.* Vnde *αἰνιγματικῶς*, *Far can di peducciaio: dare in budella.* Ex locutione ancipiti origo adagionis.

EX GRAECIS.

APud Græcos, referente Strabone Geographiæ lib. 13. in prouerbium ceſſit verſus ille Homeri Iliad. ζ.

ἄσσον ἴθ', ὡς κεν θᾶσσον ὀλέθρε πείρατ' ἵκηαι. i.
Propiùs accede, vt exitij terminos ocyus attingas.

Alluſio verſatur in verbo ἄσσον, quod non modò propiùs ſignificat, ſed Aſſon, maritimam Lyciæ ciuitatem, quæ in edito ſita eſt promontorio, ita vt ad eam accedere parùm tutum ſit. Quo adagio detertebant a rebus illis, quæ non ſine periculo comparari poſſe videbantur.

Huius etiã generis eſt illud Ariſtophanis in Comœdiâ, cui Titulus *Ἱππεῖς*.

τὼ χεῖρ' ἐν αἰτωλοῖς, ὁ νοῦς δ' ἐν κλωπιδῶν. i.
Manus in Aetolis, mens in Clopidis.

Vbi duplex alluſio ad vocem Aetolis, & ad vocem Clopidis. Prior adumbrat Aetolos populos, atque αἰτεῖν ὅλον. i. totum flagitare. Poſterior venuſto paragrammatiſmo, pro Cropidis, quod eſt nomen Athenienſis tribus,

Clopidas habens, κλοπὴν. i. furtum exprimit, cuius perpetuò reum agit Cleonem. Verba Græci interpretis hæc sunt. τὸ χεῖρ ἐν αἰτωλοῖς ἀπὸ τῆς ἑνόματος τὸ πρᾶγμα λέγει· ἐκεῖ αἰτωλία. ἀλλ' ἐν τῷ αἰτεῖν. τὸ δ' ἐν κλωπιδῶν, ἐναλλαγὴ πάλιν στοιχείου τοῦ Ρ εἰς τὸ Λ. κρωπίδαι γὰρ δῆμος τῆς λεοντίδος φυλῆς. ἔπαιζεν ἂν παρὰ τὸ κλέπτειν. Quod prouerbiale scomma, ut Eustathius sentit in Odyss. ξ. incitur in ueteratorem improbum, & munerum receptorem; qui & flagitiosè manibus donaria effligiet, & furaci animo opes inuolet. Vide ibi plura.

Describo ad uerbum ex Animaduersionibus Casauboni in Athenæi principium capitis 8. libri 9. ἐπιτιμῶντες δ' ἔτι φασὶν, Μὴ δ' ἂν τὸν Οἰνέα Πηλέα ποιεῖν. Eustathius ita interpretatur: Oeneus, & Peleus personæ heroicæ positæ sunt pro οἶνος, & πηλὸς, unde ortæ uidentur. Reprehenditur autem his uerbis pincerna, qui uinum in cyathum sic fundit, & effundat. Vinum humi cadens, fit πηλὸς lutum. Scimus etiam πηλὸν dictum ueteribus fuisse uinum; ut ego arbitror, non merum, & sincerum, sed mixtum, aut mangonizatum: inde κάπηλος, qui tale uinum uendit. Quare possumus etiam sic exponere; non oportet οἰνέα facere πηλέα i. bonum unum malum facere, & corrumpere. Quis primus hoc dixerit, non nunc memini. Vetustissimum quidem dictum est: cuius etiam facit mentionem Demetrius Phalereus, uel quicumque est libri eius auctor. Hactenus Casaubonus. Locus Demetrij est, ubi agit de modo utendi prudenter ridiculis. Primus, qui hunc Demetrij locum turpi mendâ purgauit, fuit Michaël Sophianus, ut inibi testatur Petrus Victorius.

Κλεὶς apud Græcos est clanis, qua ostia, uel arcæ aperiuntur, & commissura humeri cum pectore, quam uulgò clauiculâ appellant. Cum igitur Philippo Macedonum regi in bello clauicula fracta fuisset, ac medicus, qui ipsum curabat, quotidie aliquid posceret. Sume, dixit, quicquid lubet; nã clauem habes.

Multa Diogenis Cynici apophthegmata, ex quibus aliquot modò afferam, & pro uiribus explicabo, ad hanc tractationis partem spectare uidentur. περὶ παιδὸς πεπορνευκότος ἐρωτηθεὶς, πότερον ἐῴη, τεγεάτης, ἔφη. i. De puero, qui pudicitiam prostituerat, interrogatus, cuias esset, Tegeates, inquit. Tota responsi uis uersatur in ambiguâ τοῦ τεγεάτης significantiâ: est enim τέγεα urbs Arcadiæ; τέγος uerò inter cætera prostibulum significat. Quò procul dubio non sine maximâ subtilitate, ac uenustate respexit Philosophus. Dioge. Laër.

Miserat Alexander per quendam Athliam literas ad Antipatrum; cum ibi adesset Diogenes, lusit in uerbo ἄθλιος, quod est miser, multisq; laboribus afflictus, sic inquiens. Athlius ab Athlio per Athliam ad Athlium. Quo denotare uoluit, non solùm principes ambitiosos (qualem sæpe notauit Alexandrum) miseros esse, sed omneis alios, quicumque in huiusmodi cupiditatibus ipsis inseruiunt.

Idem etiam lusit in uerbo αἰδέσιμος, quod apud Græcos, ut sentio apud Latinos,

nos, tam ad animum, quàm ad corpus refertur. Interrogatus enim, cur Athletæ nihil sentirent. Quia (respondit) suillis, ac bubulis carnibus educati sunt. Nam cibi crassiores corpori quidem robur addunt, sed mentis aciem hebetant. Diogenes igitur ipsorum stuporem notauit, cum interrogaretur, cur, quasi sensu carentes, plagis non offenderentur.

ἰδών ποτε ὀλυμπιονίκην, inquit Laërtius in eius vitâ, πρόβατα νέμοντα, ταχέως, εἶπεν, ὦ βέλτιστε, μετέβης ἀπὸ τῶν ὀλυμπίων ἐπὶ τὰ νέμεα. i. Intuitus aliquando Olympionicen, oueis pascentem; citò, dixit, ô bone vir, ab Olympijs ad Nemea te contulisti. Apophthegmatis ambiguitas consistit in verbo Νέμεα, quo tanquã digito ostenditur & νέμειν, quod est pascere, & Νέμεα, quæ celeberrima illa in honorem Herculis, vel, si Archiæ credimus, Alchemori certamina significat. Huic nõ longè videtur absimilis lusus ille Martialis in verbo Palinurus, quod fit a πάλιν οὐρεῖν, quòd est iterũ meiere,

Minxisti currente semel, Pauline, carinâ;
Meiere uis iterum, iam Palinurus eris. lib. 3.

Didymon quidam medicus vulgò ob luxuriæ vitium malè audiebat. Cum ergo Diogenes eum uidisset uirginis oculum curantem; Vide, inquit, ne κόρην corrumpas. Vox ista Græcis significat uirginem, & oculi pupillam.

Possem quoque afferre, & exponere illud; μὴ ἀπ' Ὀμφάλης πρὸς Ἥβην i. Ne ab Omphale ad Heben; ubi sub nomine harum mulierum alluditur ad uoces ὀμφαλός, & ἥβη ἀντὶ τῆς γυναικὸς αἰδοῦς. Sed, nequâ in parte honestas lectorum aureis offendam, ut alibi alia, ita hoc in loco istud uerecundo silentio præteriens, pro ipso profero lusum in uerbo ἰσάναι. Ἀπελλῆς ὁ ζωγράφος, ἐρωτηθεὶς διὰ τί τὴν τύχην καθημένην ἔγραψεν, εἶπεν. ἐπ' ἴσης γάρ. i. Apelles pictor, interrogatus, cur sedentem pinxisset fortunam: Quia, inquit, non stat. Refertur a Maximo.

EX LATINIS.

APud Latinos etiam extant huiusmodi allusionum non pauca exempla. ut manifestissimè appâret ex testamento M. Grunij Corocottæ Porcelli, de quo non semel inter alios meminit D. Hieronymus. Omissis igitur, quæ illic habentur, afferam hoc in loco speciminis gratiâ nonnulla, quæ pulcriora, nostræq; linguæ propinquiora usa sunt.

Recitabatur in Senatu ex oratione, quam habebat Sextus Nero in Vindicem, sceleratos pœnas daturos, breuiq; dignum exitium facturos, cum sit bitò ab uniuersis exclamatum est. Tu facies Auguste: quæ uerba possunt bifariam accipi; uel, Tu facies, ut dent pœnas, uel, Tu ipsas dabis. Idem in simili proposito diceretur a nobis. *Tu lo farai.* *Tu lo farai*

De Caluino Glauciâ claudicante, qui Clodio fauebat, dixit quidam. Caluinus non claudicat, sed clodicat. Veteres pro Claudio Clodium dicebant, ut notum est. Extat apud Cic. in 2. de Oratore.

Peruicax

Capoduro. Peruicax a Latinis interdum, ut a nobis, appellatur Caputdūrum. Hoc planè apparet ex eo. Cum tenuis conditionis homo cuidam obtrectaret; hic Colaphum, dixit, tibi dicam; & Formulam scribo, quòd caput durum habeas. Duplex est iocus, & in more uocantium aliquem in ius: Diē enim dicunt, missōq; libello, quare eum in ius uocent, exprimunt: nam pro Diē tibi dicam, dixit, Colaphum tibi dicam. Alter iocus est in amphibologiâ capitis duri. Quoniam durum caput habere dicitur tam pertinax, quàm qui percutientis manum offendit.

Perdere. Item perdere interdum Latinis ualet, quod *Perdere* Italis. i. amittere, ac priuari. Malus patronus causſam agendo uocem obtuderat. Huic Grānius suadebat, ut, domum reuersus, frigidum mulsum biberet. Cui patronus; atqui perdam uocem, si hoc fecero. Præstat, subdit Granius, perdere uocem, quàm reum. Huic simile est distichum illud in Neronem ex ambiguâ uerbi Tollere significantiâ.

Quis neget Æneæ clarâ de stirpe Neronem?
Substulit hic matrem, substulit ille patrem.

Sueton. in eius vitâ, cap. 39.

In Supplemento linguæ Latinæ.

Plancus (auctore Macrob. Satur. lib. 2. cap. 2.) cum uellet testem in suâ causſâ molestum perturbare. Quo, inquit, te artificio tueris? Sciebat enim, illum esse sutorem. Cui callidē sutor; Gallam subigo. Lusus est pulcherrimus in uoce gallâ, quam subulam significare inter alios inquit Robertus Constantinus (*Iesina* dicitur a nobis) & Gallâ nomine proprio mulieris. Plancus enim ob adulterium Mæuiæ Gallæ malè audiebat.

Miseri. Parci, tenuésque in impensis homines appellantur a nobis *Miseri*: quod nō caret suâ origine: sic enim & a Romanis interdum appellabantur. Nam Stratonicus interrogatus, quinam essent in Pamphyliâ miserrimi; Phaselitæ, inquit; Sed in toto orbe miserrimi sunt Sidetæ. Vtrobique in prędicto sensu accipiens miserum: Phaselitarum enim in sacrificijs sordes prouerbio notatę sunt, ut meminit Zenodotus, & Eudēmus. *Notatur inter Apophthegmata Latina.*

Dare inter alia ualet conferre beneficia, suíque copiam facere, ut ex illo Martialis notissimo. Vis dare, nec dare tuis. Cum itaque C. Cæsar in Senatu causſam filiæ Nicomedis enixè defenderet, beneficiáque Regis in se commemoraret; Remoue, inquit Cicero, isthæc, oro: notum est enim, quid ille tibi, quid tu illi dederis. Nam Cæsar credebatur Bithynię regi uel ultra pudicitiæ terminos inuigeratus. Quod palàm testantur illi uersus ab eius militibus decantatis in Gallico triumpho.

Gallias Cæsar subegit, Nicomedes Cæsarem.
Ecce Cæsar nunc triumphat, qui subegit Gallias:
Nicomedes non triumphat, qui subegit Cæsarem.

Sueton. in eius vitâ cap. 49. Vtinam talia uitia penitus cum Romanis illis sepulta fuissent; atque esset in hoc pauperior nostra lingua.

Est apud Rebuſum in Commentarijs iuris Gallicorum Sacerdotiorum dictum

Παρί-

DE PARECHESI.

Παρήχησις generali appellatione dicitur a Græcis figura illa, quã nos nulgò, cuiuscunque speciei sit, nuncupamus *Bisticcio*, seu *Bisticcico*. Est autem παρήχησις (ut inquit Hermogenes lib. 4. de Inuentione) κάλλος ὁμοίων ὀνομάτων ἐν διαφορᾷ γνώσει ταυτὸν ἠχούντων. οἷον ὅταν δύο, ἢ τρεῖς, ἢ τέτταρας λέξεις, ἢ ὀνόματα εἴπῃ τις ὅμοια μὲν ἠχοῦντα, διάφορον δὲ τῷ δηλοῦν ἔχοντα. i. Parechesis similiũ nominum in differenti significatiâ idem resonantium pulchritudo. Vt cum duas, vel treis, vel quatuor dictiones, aut nomina dixerit aliquis similiter quidem sonantia, diuersam verò significationem habentia. Quæ definitio optimè congruit illis, quæ tradit Eustathius, enarrans versum è primo Ilia.

τὸν, καὶ ὑπὲρ δεισαν μάκαρες θεοὶ, οὐδέ τ' ἔδυσαν. Vbi etiam enumerat singulas παρηχήσεως species, ipsarúmque exempla producit. Qui igitur de hac materiâ plura, ac magis exquisita desiderat, consulat eum Grammaticum; nos enim, ut alia, hæc quoque παχύτερον attingemus, sufficiétque, auctorem, siue expositorem demonstrâsse.

Nostra Parechesis vulgò fit ex duabus tantùm dictionibus, vt sæpius etiam sua apud Græcos, & Romanos. Fit autem Aut ex Nominibus; Aut ex Verbis; Aut ex Aduerbijs per se; Aut ex alijs specie diuersis vocibus, ut Nomine, & Verbo; Verbo, & Aduerbio; & cæteris permistè. Vt autem pateat, etiam grauissimos auctores (nam de Comicis, Mimographis, & huiuscemodi, non est dubitandum) fuisse talium venustatum studiosos, decreui ex antiquioribus vtriusque linguæ nobilissimis scriptoribus singulorum, quæ dicta sunt, huc exempla transferre.

Ex

Ex elegantiſsimo Paſtoralium ſcriptore, ex Tatio, Heliodoro, aliiſq; recentioribus Græcis nihil attuli, cum hi loquendi floſculi ipſorũ proprij ſint, ac paſsim a quouis inueniri poſsint. Quantùm verò in huiuſmodi figuræ elegantiâ, ac uenuſtate noſtri cæteros ſcriptores ſuperàuerint, hinc manifeſtiſsimè conijci poteſt; quòd ab ipſis non ſolùm ad Græcorum, Romanorúmq; imitationem in magnifico, grauioríq; charactere parcè uſurpata eſt; ſed ex illâ in tenui, ac iocoſo integra poëmata cõpoſita ſunt. Ego tamen duobus tantùm exemplis, illísq; breuiſsimis contentus ero; quorum unum ἀνέκδοτον, alterum iandiu publicatum fuit. Mos eſt Prætoribus Florentinis, aliísq; Pagorum, uel Oppidorum Præfectis, ut, ſi uelint, tranſactâ prouinciâ, ſuæ familiæ Inſignia Palatio, ubi incoluerunt, alicubi affigant cum aliquo pro ſui memoriâ Eclogio. Raphaël Franciſcius uir nobiliſsimus, & ob huiuſmodi elegantiarum peritiam ab alijs commendatus, cum prouinciam quamdam geſsiſſet, oratus ab amicis, ut aliquod ſui monumentum relinqueret, hoc quaſi iocans de improuiſo exarauit.

Matto è, chi mette nel muro la mira.
Che ſcade ſcudo far di fumo fama,
Se morte ha 'l merto, che ci tara, e tira?

Quorum uerſuum ſententiam, quia pulcherrima eſt, ita currenti calamo adumbro.

Stulte, quid extollis maiorum inſigne tuorum?
Inſtar enim fumi fama eſt; nec ſpicula forti
Obſiſtunt morti, in cinerem quin omnia cernat.

Alterum hoc extat Aloyſij Pulcij Morgantis lib. 23. in fine.

La caſa, coſa parea bretta, e brutta,
Vinta dal vento, e la natta, e la notte
Stilla di ſtelle, ch' a tetto era tutta;
Del pane a pena ne dette ta' dotte.
Però auea pure, e qualche fratta frutta;
E ſuina, e ſuena di botto una botte.
Poſcia per peſci laſche preſe a l' eſca:
Ma il letto allotta alla fraſca fu freſca.

Inter Epiſtolas Lucæ Pulcij unam reperias, quam Circe ad Vlyſſem ſcribit; ubi diuerſæ omnis generis παρηχήσεις abundè ſuppetũt: conſtat enim ex nonaginta quatuor uerſibus, & in unoquoque, ut ex prædictis adnotare potes, duæ Parechеſes reperiuntur.

Dixi ſuperiùs, noſtram Parechеſin uulgò ex duabus dictionibus conſtare; quod in ſcriptis recentiorum abſque ullâ exceptione ueriſsimum eſt. Nolo tamen ſilentio inuoluere, me apud antiquiores Etruſcos ex tribus etiam reperiſſe, ut in illis uerſibus Epitaphij.

Per falli folli, che ſon troppo felli.
La pazza al pazzo menando la pezza.

Sed hoc hodie in uſu non eſt; & huiuſmodi Brunetti opus apud doctiores non multum obtinet auctoritatis.

HAec ſunt, quæ hactenus lectitando, obſeruandóque de Florentinâ, ſiue Etruſcâ Linguâ mihi in mentem uenerunt. Longè plurima afferen tur, & ad amuſſim explorata, ſummâ diligentiâ, certóque ordine declarabuntur in noſtro Dictionario: quod opus multis ante annis inchoatũ, atque aſſiduè elaboratum, ut in Præfatione dixi, iam propè confectum habemus. Sed hîc è re natâ ſtudioſum noſtræ Academię laborum admonitum uolo, ne ullâ ratione prębeat aureis quibuſdam ignauis, ineptísque canibus, qui, ne veſtigijs quidem feræ perſpectis, gannire, ac latrare incipiunt, indagines bene diſpoſitas, ſi Deus faxit, tali pacto perturbare, atque confundere conantes. Effutiunt enim, noſtram Academiam voces penitus obſoletas, rancidâsque ex turbido Lethes fluuio excitatas, in uitam velle reuocare, ac in ora hominum inconſultò redigere. Non eſt hoc, non eſt Academiæ noſtræ conſilium; quippe quam non fugiat, id efficiendi Vſum ſolum moderatorem eſſe, atque arbitrum. Sed eas in Dictionario explicans, quæ in melioribus optimi ſæculi auctoribus extant, Vſui proponit, tanquam iure poſtliminij in priſtinam libertatem uindicandas. Quo conditionem accipiente, ſatis confidit, multas ex ijs, quæ iam cecidere, eſſe reſurrecturas, multásque fortaſſe caſuras, quæ, non uacuâ, nec derelictâ improbæ, atque impudicæ alterius poſſeſſione occupatâ, apud quoſdam nunc in pretio, atque in honore ſunt non mediocri. Pro comperto quidem habet, ubi emiſſum fuerit Dictionarium, quam plurimas in ſuis ſcriptis a purè loqui cupientibus inſitum iri. Nec arbitratur, inter obſoletas, rancidásque, ut iſti dicunt, temerè omneis, quæ hodie non ſint vulgi ſermone tritæ, eſſe dinumerandas. COSTVMA enim verbi gratiâ, quam pro Vſu, ſeu Conſuetudine uſurpârunt antiquiores, COSTVME pro More, ſiue Decoro utentes, non cenſet eſſe ex veterum, uietarúmque numero, utpote unico elemento ab eâ diſtincta ſit, quam planè Itali omnes vbique intelligunt. Quapropter ignorat, cur ſaltem in ſcriptis grauioribus non ſeruanda ſit hæc ab illo ſæculo conſtituta diuerſitas. Nec ſatis uidet, cur ſuper eâ tot rumores excitandi fuerint, cum ipſius ſcriptura, ac pronunciatio neque oculos, neque aureis offendat, quippe viſu pulcherrima, atque auditu videatur ſuauiſſima. Conſulant, qui aliter ſentiunt, magiſtros rectè dicendi, ſcribendíque, Ariſtotelem, Demetrium, & alios; nec dubito, quin ab ipſis longè aliter ſentire percipiant. Sed nolo in tali argumento, pluribus inſiſtere: nam de re tam ſeriâ non eſt admodum opportunus hic agendi locus. Nec me latet, Academicorum multis ingratam potius, quàm gratam fore breuem hanc digreſſionem: morſus enim culicum non curat Elephantus Indicus, nec uanis canum latratibus mouetur Luna, ut ex antiquis, & noſtratibus dictis vulgò fertur. Quos tamen obſecro, ut mihi in hac querelâ uolentes libenti animo ignoſcant. Namque ad hoc me impulit officium, ſeu pietas in FRANCISCVM SANLEOLINVM, qui prædictâ voce pulcherrimè utitur in grauiſſimâ pariter, ac uenuſtiſſimâ ſuâ funebri Oratione de Laudibus PETRI ANGELII BARGAEI: unde tantorum la-

tratuum cauſſa orta eſt, atque origo. Quòd ſi ipſe tam acerbâ morte iãdiu nobis non præreptus fuiſſet, ſilerem penitus ego, neque pro tam dulci olore obſtreperem tam raucus anſer. Quoniam uerò candidæ mentis eſt, quam uiuo quis debet obſeruantiam, eamdem, uel maiorem uitâ functo perſoluere, nolui metu uani rumoris ab huiuſmodi officio deſiſtere, illud Ouidij etiam, atque etiam mente agitans;

Conſcia mens recti, famæ mendacia ridet.

FINIS.
